Asen, 2021-10-05 Evidence shows that the increasing privatization of K 12 education siphons resources away from public schools resulting in poorer learning conditions underpaid teachers and greater inequality But as Robert Asen reveals here the damage that market based education reform inflicts on society runs much deeper At their core these efforts are antidemocratic Arguing that democratic communities and public education need one another Asen examines the theory

driving privatization popularized in the neoliberalism of Milton and Rose Friedman as well as the case for school choice promoted by former secretary of education Betsy DeVos and the controversial voucher program of former Wisconsin governor Scott Walker What Asen finds is that a market based approach holds not just a different view of distributing education but a different vision of society When the values of the market choice competition and self interest shape national education that policy produces individuals Asen contends with no connections to community and no obligations to one another The result is a society at odds with democracy Probing and thought provoking School Choice and the Betrayal of Democracy features interviews with local on the ground advocates for public education and offers a countering vision of democratic education one oriented toward civic relationships community and equality This book is essential reading for policymakers advocates of public education citizens and researchers Civic Engagement and Technical Communication

James M. Dubinsky, J. Harrison Carpenter, 2023-04-14 This special issue on civic engagement and technical communication focuses on the ways educators can help students become actively engaged members of society particularly a rhetorical democracy The first essay examines the concept of community as a locus for civic engagement and question some of the definitions of community seen embedded in current pedagogical practices The next article seeks to shape understanding of practice The tension of developing students civic awareness and engagement is the topic of the third paper The fourth article helps students gain skills and organization awareness and improves the perceived relevance of the work The final two essays approach the issue of civic engagement from slightly different angles one examining the role of teacher as both rhetor and instructor and the other looking to the past for possible solutions for the future By continuing the conversation about the relationship between technical communication and the public good and focusing specifically on pedagogical strategies and their theoretical and historical underpinnings the authors in this special issue clarify roles that technical communication and technical communicators play in civil society as well as ways curricula can be shaped to prepare students to fill those roles

Lost Intimacies William J. Spurlin, 2009 *Lost Intimacies Rethinking Homosexuality under National Socialism* uses queer theory as a hermeneutic tool with which to read against the grain of heterotextual narratives of the Holocaust and as a way of locating alternative pathways of meaning in dominant Holocaust research Specifically addressing the racialization of sexuality the book asks how the politics of sexuality can be more explicitly and systematically theorized along with state sanctioned homophobia under Nazism with a clear recognition that homophobia seldom operated alone but worked in conjunction with other axes of power including race gender eugenics and population politics In theorizing gender and sexuality as entangled axes of analysis the book allows the specificity of lesbian difference to emerge and challenges the received wisdom that lesbians were not as systematically persecuted under National Socialism William J Spurlin questions the wisdom of received scholarship that reduces Nazi fascism to latent homosexuality and examines the possible implications of Nazi homophobia and its imbrication with other deployments of power for the study of contemporary culture where the homophobic impulse continues to reverberate thereby challenging understandings of history steeped in notions of progressive modernity

Centrist Rhetoric Antonio de Velasco, 2010-03-08 What exactly is happening when politicians evoke a center space beyond partisan politics to advance what are unmistakably political arguments Drawing from an analysis of pivotal speeches surrounding Bill Clinton's 1992 presidential campaign and first term in office *Centrist Rhetoric The Production of Political Transcendence in the Clinton Presidency* takes an extended look at this question by showing how the possibility of political transcendence takes form in the rhetoric of the political center Faced with a divided and shrinking party and later with a pitched battle against a resurgent conservative movement Clinton used the image of a political center a third way beyond liberal and conservative orthodoxies to advance his strategic goals define his adversaries and overcome key political challenges As appeals to the center helped Clinton to achieve these advantages in specific cases however they also served to define the means ends and very essence of democracy in ambiguous and contradictory ways Touching on controversies from the early 1990s over the future of the Democratic Party racial identity in American politics the threat of rightwing extremism and the role of government Antonio de Velasco shows how centrist rhetoric's call to transcendence weaved together forms of identification and division insight and blindness so as to defy the conventional assessments of both Clinton's supporters and his detractors *Centrist Rhetoric* thus offers general insight into the workings of political rhetoric and a specific appreciation of Clinton's attempts to define and adjust to the political exigencies of a critical period in history of the Democratic Party and

politics in the United States
