**Knowledge for Justice** Halvorsen, Tor, Ibsen, Hilde, 2017-11-28 With the adoption of the United Nations Sustainable Development Goals SDGs and the Paris Agreement the purpose of development is being redefined in both social and environmental terms. Despite pushback from conservative forces, change is accelerating in many sectors. To drive this transformation in ways that bring about social, environmental, and economic justice at a local, national, regional, and global levels, new knowledge and strong cross-regional networks capable of foregrounding different realities, needs, and agendas will be essential. In fact, the power of knowledge matters today in ways that humanity has probably never experienced before, placing an emphasis on the roles of research academics and universities. In this collection, an international, diverse collection of scholars from the southern African and Nordic regions critically review the SDGs in relation to their own areas of expertise while placing the process of knowledge production in the spotlight. In Part I, the contributors provide a sober assessment of the obstacles that neo-liberal hegemony presents to substantive transformation. In Part Two, lessons learned from North-South research collaborations and academic exchanges are assessed in terms of their potential to offer real alternatives. In Part III, a set of case studies supply clear and nuanced analyses of the scale of the challenges faced in ensuring that no one is left behind. This accessible and absorbing collection will be of interest to anyone interested in North-South research networks and in the contemporary debates on the role of knowledge production. The Southern African Nordic Centre SANORD is a network of higher education institutions that stretches across Denmark, Finland, Iceland, Norway, Sweden, Botswana, Namibia, Malawi, South Africa, Zambia, and Zimbabwe. Universities in the southern African and Nordic regions that are not yet members are encouraged to join.

**Public Art in South Africa** Kim Miller, Brenda Schmahmann, 2017-10-16 How does South Africa deal with public art from its years of colonialism and apartheid? How do new monuments address fraught histories and commemorate heroes of the struggle? Across South Africa, statues commemorating figures such as Cecil Rhodes have provoked heated protests, while new works commemorating icons of the liberation struggle have also sometimes proved contentious. In this lively volume, Kim Miller, Brenda Schmahmann, and an international group of contributors explore how works in the public domain in South Africa serve as a forum in which important debates about race, gender, identity, and nationhood play out. Examining statues and memorials as well as performance, billboards, and other temporal modes of communication, the authors of these essays consider the implications of not only the exposure but also erasure of events and icons from the public domain. Revealing how public visual expressions articulate histories and memories, they explore how such works may serve as a forum in which tensions surrounding race, gender, identity, or nationhood play out.

*Statesman* Douglas Rooks, 2016-07-01 Over the course of his long and storied career George Mitchell proved to be much more than just that senator from Maine He is one of the last from a sort of golden age of American politics when opposing parties worked together to accomplish things for the good of the nation rather than the good of the party Before becoming senator Mitchell was an attorney and then a judge in Maine Among his many public efforts he is perhaps known for his environmental work and his work on peace and justice especially his brokering of the peace in Ireland and his efforts in the Middle East Now seasoned journalist Douglas Rooks gives us a thoughtful and highly readable look at the man and his public work While the book traces his personal life it is primarily a

political biography exploring his time in office as well as his public work before and after his elected terms Compiled from extensive interviews with Mitchell as well as staffers and others who ve known and worked with him it is as much an exploration of American politics at a time when politics could actually be said to have worked as it is a man whose vision and ideals have helped shape the world

*Decolonising Curricula and Pedagogy in Higher Education* Shannon Morreira, Kathy Luckett, Siseko H. Kumalo, Manjeet Ramgotra, 2021-05-31 This book brings together voices from the Global South and Global North to think through what it means in practice to decolonise contemporary higher education Occasionally a theoretical concept arises in academic debate that cuts across individual disciplines Such concepts which may well have already been in use and debated for some time become suddenly newly and increasingly important at a particular historical juncture Right now debates around decolonisation are on the rise globally as we become increasingly aware that many of the old power imbalances brought into play by colonialism have not gone away in the present The authors in this volume bring theories of decoloniality into conversation with the structural cultural institutional relational and personal logics of curriculum pedagogy and teaching practice What is enabled in practice when academics set out to decolonize their teaching spaces What commonalities and differences are there where academics set out to do so in universities across disparate political and geographical spaces This book explores what is at stake when decolonial work is taken from the level of theory into actual practice The chapters in this book were originally published as a special issue of Third World Thematics

**Tearfund and the Quest for Faith-Based Development** Dena Freeman, 2019-08-19 This book gives an in depth analysis of the role of faith in the work of Tearfund a leading evangelical relief and development NGO that works in over 50 countries worldwide The study traces the changing ways that faith has shaped and influenced Tearfund s work over the organisation s 50 year history It shows how Tearfund has

consciously grappled with the role of faith in its work and has invested considerable time and energy in developing an intentionally faith based approach to relief and development that in several ways is quite different to the approaches of secular relief and development NGOs. The book charts the different perspectives and possibilities that were not taken and the internal discussions about theology, development practices and humanitarian standards that took place as Tearfund worked out for itself what it meant to be a faith based relief and development organisation. There is a growing academic literature about religion and development as well as increasing interest from development ministries of many Northern governments in understanding the role of religion in development and the specific challenges and benefits involved in working with faith based organisations. However, there are very few studies of actual faith based organisations and no book length detailed studies showing how such an organisation operates in practice and how it integrates its faith into its work. In documenting the story of Tearfund, the book provides important insights into the practice and ethos of faith based organisations which will be of interest to other FBOs and to researchers of religion and development.

**A Better Future** Jacqueline Bhabha, Wenona Giles, Faraaz Mahomed, 2020-09-17 Policy makers, advocates and scholars have long concentrated on the importance of equal access to primary and secondary education as a foundation for a democratic and just society. Despite the growing importance of higher and specialist education in an increasingly technological and skill focused global market, tertiary education has attracted much less attention. And yet universities and colleges are epicentres of egregious disparities in access which impinge on traditionally marginalized communities such as racial minorities, migrants, indigenous populations and people with disabilities. By drawing attention to this issue and assembling first rate material from scholars and policy makers across the globe, this book performs an invaluable service for those interested in understanding and fighting a highly significant violation of educational opportunity and social justice.

**Cornell** Glenn C. Altschuler, Isaac Kramnick, 2014-08-12 In their history of Cornell since 1940, Glenn C. Altschuler and Isaac Kramnick examine the institution in the context of the emergence of the modern research university. The book examines Cornell during the Cold War, the civil rights movement, Vietnam, anti-apartheid protests, the ups and downs of varsity athletics, the women's movement, the opening of relations with China, and the creation of Cornell NYC Tech. It relates profound, fascinating and little known incidents involving the faculty, administration and student life, connecting them to the Cornell idea of freedom and responsibility. The authors had access to all existing papers of the presidents of Cornell, which deeply informs their respectful but unvarnished portrait of the university. Institutions like individuals develop narratives about themselves; Cornell constructed its sense of self of how it was special and different on the eve of World War II when America defended democracy from fascist dictatorship. Cornell's fifth president, Edmund Ezra Day and Carl Becker, its preeminent historian, discerned what they called a Cornell soul, a Cornell character, a Cornell personality, a Cornell tradition, and they called it freedom. The Cornell idea was tested and contested in Cornell's second seventy-five years. Cornellians used the ideals of freedom and responsibility as weapons for change and

justifications for retaining the status quo to protect academic freedom and to rein in radical professors to end in loco parentis and parietal rules to preempt panty raids pornography and pot parties and to reintroduce regulations to protect and promote the physical and emotional well being of students to add nanofabrication entrepreneurship and genomics to the curriculum and to require language courses freshmen writing and physical education In the name of freedom and responsibility black students occupied Willard Straight Hall the anti Vietnam War SDS took over the Engineering Library proponents of divestment from South Africa built campus shantytowns and Latinos seized Day Hall In the name of responsibility and freedom the university reclaimed them The history of Cornell since World War II Altschuler and Kramnick believe is in large part a set of variations on the narrative of freedom and its partner responsibility the obligation to others and to one s self to do what is right and useful with a principled commitment to the Cornell community and to the world outside the Eddy Street gate Daily Graphic Ransford Tetteh,2010-07-09 **Encyclopedia of Christianity in the Global South** Mark A.
