*Rise of the Far Right* Melody Devries,Judith Bessant,Rob Watts,2021-07-29 After decades on the social and political margins far right groups and movements are enjoying increasing success and even claiming a place in mainstream electoral politics in many Western political systems Research shows that new media like Twitter YouTube and community sites likes 4chan and Reddit are increasingly involved with the mobilization of popular support for far right electoral campaigns and even organized political violence These technologies including other social media discussion websites certain online games chat servers talk radio cable news and print media are making contemporary far right ideologies possible in diverse ways altering methods of recruitment to the extent that they become unrecognizable from far

right movements of the past and thus more dangerous The results of these new technological processes can be seen in the increasing normalization of far right values within mainstream culture politics and media ecosystems within countries from the United States Britain Australia Germany and Hungary This book brings together recent academic research exploring how far right groups use new media to recruit followers to extremist beliefs and mobilize political action In doing so the book reveals the complex ways that evolving technologies are used both purposively subtly and in some cases incidentally to recruit and mobilize far right support

Since the elections of 2002 Erdogan s AKP has dominated the political scene in Turkey This period has often been understood  
as a break from a secular pattern of state building But in this book Ceren Lord shows how Islamist mobilisation in Turkey has  
been facilitated from within the state by institutions established during early nation building Lord thus challenges the  
traditional account of Islamist AKP s rise that sees it either as a grassroots reaction to the authoritarian secularism of the  
state or as a function of the state s utilisation of religion Tracing struggles within the state Lord also shows how the state s  
principal religious authority the Presidency of Religious Affairs Diyanet competed with other state institutions to pursue  
Islamisation Through privileging Sunni Muslim access to state resources to the exclusion of others the Diyanet has been a  
key actor ensuring persistence and increasing salience of religious markers in political and economic competition creating an  
amenable environment for Islamist mobilisation     **The Once and Future Worker** Oren Cass,2018-11-13 Cass s core  
principle a culture of respect for work of all kinds can help close the gap dividing the two Americas William A Galston The  
Brookings Institution The American worker is in crisis Wages have stagnated for more than a generation Reliance on welfare  
programs has surged Life expectancy is falling as substance abuse and obesity rates climb These woes are not the inevitable  
result of irresistible global and technological forces They are the direct consequence of a decades long economic consensus  
that prioritized increasing consumption regardless of the costs to American workers their families and their communities  
Donald Trump s rise to the presidency focused attention on the depth of the nation s challenges yet while everyone agrees  
something must change the Left s insistence on still more government spending and the Right s faith in still more economic  
growth are recipes for repeating the mistakes of the past In this groundbreaking re evaluation of American society economics  
and public policy Oren Cass challenges our basic assumptions about what prosperity means and where it comes from to  
reveal how we lost our way The good news is that we can still turn things around if the nation s proverbial elites are willing

to put the American worker's interests first Which is more important pristine air quality or well paying jobs that support families Unfettered access to the cheapest labor in the world or renewed investment in the employment of Americans Smoothing the path through college for the best students or ensuring that every student acquires the skills to succeed in the modern economy Cutting taxes expanding the safety net or adding money to low wage paychecks The renewal of work in America demands new answers to these questions If we reinforce their vital role workers supporting strong families and communities can provide the foundation for a thriving self sufficient society that offers opportunity to all
