Lemos, Cristina Gacek, 2005-09-15 As software systems become ubiquitous the issues of dependability become more and more crucial. Given that solutions to these issues must be considered from the very beginning of the design process it is reasonable that dependability is addressed at the architectural level. This book comes as a result of an effort to bring together the research communities of software architectures and dependability. This state of the art survey contains 16 carefully selected papers originating from the Twin Workshops on Architecting Dependable Systems WADS 2004 accomplished as part of the International Conference on Software Engineering ICSE 2004 in Edinburgh UK and of the International Conference on Dependable Systems and Networks DSN 2004 in Florence Italy. The papers are organised in topical sections on architectures for dependable services monitoring and reconfiguration in software architectures dependability support for software architectures architectural evaluation and architectural abstractions for dependability. **Current Catalog** National Library of Medicine (U.S.), 1980 First multi year cumulation covers six years 1965-70 Daily Graphic Ransford Tetteh, 2010-07-22

Reussner, Frantisek Plasil, 2010-06-11 The 2010 Symposium on Component Based Software Engineering CBSE 2010 was the 13th in a series of successful events that have grown into the main forum for industrial and academic experts to discuss component technology. CBSE is concerned with the development of software intensive systems from dependently developed software building blocks components the development of components and system maintenance and improvement by means of component replacement and customization. The aim of the conference is to promote a science and technology foundation for achieving predictable quality in software systems through the use of software component technology and its associated software engineering practices. In line with a broad interest CBSE 2010 received 48 submissions. From these submissions 14 were accepted after a careful peer review process followed by an online program committee discussion. This resulted in an acceptance rate of 29%. The selected technical papers are published in this volume. For the fourth time CBSE 2010 was held as part of the conference series Federated Events on Component Based Software Engineering and Software Architecture COMPARCH. The federated events were the 13th International Symposium on Component Based Software Engineering CBSE 2010 the 6th International Conference on the Quality of Software Architectures QoSA 2010 and the 1st International Symposium on Architecting Critical Systems ISARCS 2010. Together with COMPARCH's Industrial Experience Report Track and the co-located Workshop on Component Oriented Programming WCOP 2010 COMPARCH provided a broad spectrum of events related to components and architectures. *Computerworld*, 1980-09-15 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide.
