I have not come to a full solution to this problem yet, but I did make changes in my life as to how I can manage time management. I found that it was easier for me to focus on homework if I was outside my dorm room, because when in my dorm, I would usually mess around on the internet or take naps. I don't think realistically I will get over procrastination anytime soon, but I can manage it.

With hurdles came hidden strengths I discovered about myself. I've never thought of myself as a leader, but because the class used group thinking in more than one occasion, I found that I am a good leader. Maximizing Self-Reflections in the Classroom Ellen Richard, 2022-11-22 What if we could guide children to self-reflect on their level of understanding to learn what concepts they truly grasp and to identify those concepts with which they still struggle before and after being assessed on these concepts? What if they could take this information and produce a plan to help themselves master material before an assessment? This practical book will enable you to work with students more effectively so they can evaluate their own levels of understanding and determine strategies to get them from where they are academically to where they need to be. You'll also find out how to involve families since self-reflection works better when students, teachers, and families partner in the learning process. Appropriate for K-8 teachers and curriculum coordinators, the book is perfect for teamwide book studies and teacher training. Examples are included throughout, and the appendix tools can be downloaded for classroom use.

Combining journalism techniques with self-exploration and personal storytelling, *First-Person Journalism* is designed to help writers develop their personal voice and establish a narrative stance.
