industry was suddenly thrust into the limelight as bitter conflicts erupted between publishers and new entrants including powerful new tech giants who saw the world in very different ways The book wars had begun While ebooks were at the heart of many of these conflicts Thompson argues that the most fundamental consequences lie elsewhere The print on paper book has proven to be a remarkably resilient cultural form but the digital revolution has transformed the industry in other ways spawning new players which now wield unprecedented power and giving rise to an array of new publishing forms Most important of all it has transformed the broader information and communication environment creating new challenges and new opportunities for publishers as they seek to redefine their role in the digital age This unrivalled account of the book publishing industry as it faces its greatest challenge since Gutenberg will be essential reading for anyone interested in books and their future (Re)writing History in Byzantium Panagiotis Manafis,2020-05-12 Scholars have recently begun to study collections of Byzantine historical excerpts as autonomous pieces of literature This book focuses on a series of minor collections that have received little or no scholarly attention including the Epitome of the Seventh Century the Excerpta Anonymi tenth century the Excerpta Salmasiana eighth to eleventh centuries and the Excerpta Planudea thirteenth century Three aspects of these texts are analysed in detail their method of redaction their literary structure and their cultural and political function Combining codicological literary and political analyses this study contributes to a better understanding of the intertwining of knowledge and power and suggests that these collections of historical excerpts should be seen as a Byzantine way of rewriting history The Open Access version of this book available at <https://www.taylorfrancis.com/books/9780429351020> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
