that ensured the survival of our ancestors for millennia **Sociology** Jean Stockard, 2000 SOCIOLOGY DISCOVERING SOCIETY 2nd provides comprehensive coverage of sociology in an affordable paperback format With research studies in every chapter and boxes that portray sociologists at work it will especially appeal to sociology professors who value a quantitative research methodology oriented approach Instead of presenting every possible theory for each issue Stockard's streamlined approach pulls in theories only when they appropriately relate to the issue at hand This integrated approach produces a text that reads more smoothly than the overly encyclopedic heavily interrupted narratives of other texts The Men's Bibliography Michael Flood, 1995 *Resources in Education*, 1994 **Capturing Digital Media** Thomas J. Connelly, 2019-04-18 Why are filmmakers such as J J Abrams Christopher Nolan and Quentin Tarantino continuing to shoot their movies on celluloid in the digital age of cinema Are these filmmakers choosing the photochemical process of celluloid images purely for aesthetics purposes Or could their preference for celluloid have something to do with analogue's intimate connection to the subject of lack and desire Capturing Digital Media Perfection and Imperfection in Contemporary Film and Television examines the relationship between the perfection of the digital form and the imperfection of the human subject in recent film and television Using a number of key psychoanalytic terms and new media concepts Capturing Digital Media shows that the necessity of imperfection is where we locate the human subject of desire within the binary logic of the digital It argues that the perfection of digital must be wounded by forms of imperfection in order to make media texts such as film and television desirable But even as films and television texts incorporate forms of imperfection digital perfection remains a powerful attraction in our engagement with moving images such as high definition screens spectacular digital effects and state of the art sound
