

A woman with long blonde hair is smiling and looking towards the camera. She is wearing a blue top and a colorful patterned shawl. In the background, there is a house at night with its porch lights on. The house has a dark roof, white columns, and a dark door. There are some plants and a small tree in front of the house.

As with the earlier transition, a change in the medium for recording and reporting transactions, i.e. from oral to written, from written to electronic, is bringing about a significant change in the economic and social system in which they are imbedded. The oral to written transition eventually gave us the concepts of property rights, commercial law, accounting standards, and financial transparency. What will the written to electronic transition give us? The answer is not clear, but we can expect that the economic system that follows this transition will differ substantially from the current system to which we are accustomed. In

this book we examine the electronic exchange mechanisms of the emerging digital economy We do so by examining eight salient topics in electronic commerce EC Each of these topics is examined in detail in a separate section of this book
