Nasong'o,Maurice N. Amutabi,Toyin Falola,2023-05-27 This volume is a bold attempt to address a comprehensive range of themes and issues relating to contemporary Kenya It covers independent Kenya s history society culture economics politics and environment with great breadth and depth comprising thirty four chapters divided into three parts Part I focuses on independence and the political economy of development followed by Part II on environment globalization gender and society Part III examines the external context s impact and implications for Kenya and the role of Kenya in the global political economy Urbanization and Slums National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Global Health,Forum on Microbial Threats,2018-06-08 The urban built environment is a prime setting for microbial transmission because just as cities serve as hubs for migration and international travel components of the urban built environment serve as hubs that drive the transmission of infectious disease pathogens The risk of infectious diseases for many people living in slums is further compounded by their poverty and their surrounding physical and social environment which is often overcrowded is prone to physical hazards and lacks adequate or secure housing and basic infrastructure including water sanitation or hygiene services To examine the role of the urban built environment in the emergence and reemergence of infectious diseases that affect human health the National Academies of Sciences Engineering and Medicine planned a public workshop This publication summarizes the presentations and discussions from the workshop *The (In)Visibility of Women and Mining* Blair Rutherford,Doris Buss,2022-09-29 The chapters in this book provide in depth insight into the gender norms and contexts in which women work in the expanding informal mining sector in sub Saharan Africa Collectively the research here provides a nuanced account of women s livelihood strategies in artisanal and small scale mining ASM as its generally known in ways that challenge images of women as either victimized by mining or empowered by mining livelihoods or both that tend to dominate the growing array of donor and policy interventions in this sector The authors come from different disciplinary traditions anthropology economics political science mining engineering law but all place questions of gendered power front and centre in their analyses of sociocultural institutional economic and political relationships practices and arrangements within which women navigate their mining livelihoods The physical or representational presence and sometimes absence of women in ASM sites is a linking theme with the chapters exploring different dimensions of mining and gender the gendered divisions of labour migration land ownership cultural norms and gendered authority relations but also how women materialize and are seen and unseen in the growing array of transnational interventions in this sector The chapters in this book were originally published as a special issue of the Canadian Journal of African Studies **Food Safety and Public Health** Yosra A. Helmy,Hosny El-Adawy,Yasser M. Sanad,Mostafa Ghanem,2022-11-09 **Wildlife Biodiversity**

Conservation Susan C. Underkoffler, Hayley R. Adams, 2021-06-26 This book addresses the multidisciplinary challenges in biodiversity conservation with a focus on wildlife crime and how forensic tools can be applied to protect species and preserve ecosystems. Illustrated by numerous case studies covering different geographical regions and species, the book introduces to the fundamentals of biodiversity. It outlines the unique challenges of wildlife crime scenes and reviews latest techniques in environmental forensics such as DNA metagenomics. In addition, the volume explores the socio-economic perspective of biodiversity protection and provides an overview of national and international conservation laws. The field of conservation medicine stresses the importance of recognizing that human health, animal health, and ecosystem health are inextricably interdependent, and the book serves as an important contribution towards achieving the UN Sustainable Developmental Goals, in particular SDG 15 Life on Land. The book addresses graduate students, scientists, and veterinary professionals working in wildlife research and conservation biology. *Illicit Medicines in the Global South* Mathieu Quet, 2021-10-20 This book investigates pharmaceutical regulation and the public health issue of fake or illicit medicines in developing countries. The book analyses the evolution of pharmaceutical capitalism, showing how the entanglement of market and health interests has come to shape global regulation. Drawing on extensive fieldwork in India, Kenya, and Europe, it demonstrates how large pharmaceutical companies have used the fight against fake medicines to serve their strategic interests and protect their monopolies, sometimes to the detriment of access to medicines in developing countries. The book investigates how the contemporary dynamics of pharmaceutical power in global markets have gone on to shape societies locally, resulting in more security-oriented policies. These processes highlight the key consequences of contemporary logistical regimes for access to health. Providing important insights on how the flows of commodities, persons, and knowledge shape contemporary access to medicines in the developing countries, this book will be of considerable interest to policy makers and regulators, and to scholars and students across sociology, science, and technology studies. **Sustainable Agricultural Mechanization: A Framework for Africa** Food and Agriculture Organization of the United Nations, African Union, 2019-03-13 This framework presents ten interrelated principles/elements to guide Sustainable Agricultural Mechanization in Africa (SAMA). Further, it presents the technical issues to be considered under SAMA and the options to be analysed at the country and sub-regional levels. The ten key elements required in a framework for SAMA are as follows. The analysis in the framework calls for a specific approach involving learning from other parts of the world where significant transformation of the agricultural mechanization sector has already occurred within a three to four decade time frame, and developing policies and programmes to realize Africa's aspirations of Zero Hunger by 2025. This approach entails the identification and prioritization of relevant and interrelated elements to help countries develop strategies and practical development plans that create synergies in line with their agricultural transformation plans. Given the unique characteristics of each country and the diverse needs of Africa due to the ecological heterogeneity and the wide range of farm sizes, the

framework avoids being prescriptive
