

## **My Autobiography**

**I am Adrian Carl V. Dumat-ol. I am currently studying at Lanao del Norte Comprehensive High School. I'm working on an autobiographical essay about a life event that motivates me to study harder. I am writing about my experience when I found out that I have half siblings. That incident had a huge impact on me.**

**It all happened one summer day in 2011 when I was still 6 years old. At that time, I had no idea that I had a half sibling. One day, my father told me to go with him because we were going to visit my aunt. While we were traveling, my father told me that there was something that I needed to know, and he never told me that it was all about my half-siblings. When we arrived at my aunt's house, I noticed my big sister, and at that time, I didn't know she was my half sibling. All I knew is that we have the same mother, which is not.**

**While we were talking, father revealed a family secret to me that I had not known since I was born. That is, my older sister and I are not purely siblings because we had different mothers. I didn't believe them at first, but as I looked into their eyes, they seemed very serious. My half-sister spoke to me, and she confirmed everything our father had said, and she reassured me that even though we have different mothers, we are still siblings. I feel better and relieved after we talk.**

**Several years have passed, and my half siblings are changing the way they treat us. So I keep my distance and stop contacting them. They asked our father why I was not contacting them. Back then, I was the one who was going to chat with them first or contact them. They confronted me about why I was avoiding them, and I told them that they were the first ones who changed the way they treated us.**

**One day, my half siblings start making rumors that because of my mother, our father is starting to lose money, which is not true. So I was stunned by what they said. I asked them why they started to spread rumors about my mother. They made a lot of excuses and now we are still on bad terms.**

**Even though many problems happen, I need to stay strong and not be affected by what happened. I need to respect my elders, even if they have done bad things to me. Do not put your faith in all of their promises because there is a chance they will break them. Always choose good deeds because of all of the things you have done, God will always watch you.**

The History of Research on Chemical Periodic Processes  
Alexander Pechenkin, 2018-08-24 This book offers a survey of the historic development of selected areas of chemistry and chemical physics discussing in detail the European American and Russian approaches to the development of chemistry Other key topics include the kinetics and non linear thermodynamics of chemical reactions and mathematical modeling which have found new applications in the theory of dynamical systems The first observations of the periodicity of chemical reactions were lost in the mist of time In the second half of the 19th century the phenomenon of chemical periodicity was studied in relation to electrochemistry solutions and colloids Discovered in the late 19th century Liesegang rings are still enigmatic and remain attractive for researchers However the discovery of the Belousov Zhabotinsky reaction marked the successful culmination of the efforts to find a true chemical oscillatory reaction The book investigates chemical phenomena that were neglected in the past but have been rediscovered placing them into a new conceptual framework For example it notes that William Bray who discovered the first oscillatory homogeneous reaction in 1921 was influenced by the first bio mathematicians who predicted chemical oscillations in homogeneous systems

*Examples and Their Role in Our Thinking*  
Ondřej Beran, 2021-03-04 This book investigates the role and significance that examples play in shaping arguments and thought both in philosophy and in everyday life It addresses questions about how our moral thinking is informed by our conceptual practices especially in ways related to the relationship between ethics and literature post Wittgensteinian ethics or meta philosophical concerns about the style of philosophical writing Written in an accessible and non technical style the book uses examples from real life events or pieces of well known fictional stories to introduce its discussions In doing so it demonstrates the complex way examples rather than exemplifying philosophical points inform and condition how we approach the points for which we want to argue The author shows how examples guide or block our understanding in certain directions how they do this by stressing morally relevant aspects or dimensions of the terms and how the sense of moral seriousness allows us to learn from examples The final chapter explores whether these kinds of engagement with examples can be understood as thinking primarily through examples *Examples and Their Role in Our Thinking* will be of interest to scholars and graduate students working in ethics and moral philosophy philosophy of language and philosophy of literature
