

Constructive Feedback Rubric

“Feedback needs to provide information specifically relating to the task or process of learning that fills a gap between what is understood and what is aimed to be understood.”
(Hattie, and Timperley 81-112)

Feedback is valuable and useful when...

Who	Someone provides it with the appropriate audience in mind. <i>Who is going to receive this information: a peer, an instructor, the program director?</i>
When	It is given as soon as possible after performance and it allows for response and interaction. <i>Will the feedback still be relevant to the audience?</i>
Why	There is purpose awareness. <i>What is my audience going to do with this information: make changes in the draft, adjust teaching strategies, add a class to the program?</i>
What	It is focused and provides specific information with clear evidence of appropriate content. <i>What are the goals?</i> <i>What progress is being made towards that goal?</i> <i>What activities need to be undertaken to make better progress?</i>
How	It is perceived as well-intentioned, respectful (devoid of inflammatory language) and knowledgeable. <i>Is what I am saying specific and useful to the audience?</i> <i>Am I addressing the content in a focused, constructive, and respectful manner?</i>

Laboratory Protocols in Fungal Biology Vijai Kumar Gupta,Maria Tuohy,2022-02-03 Mycology has an integral role to play in the development of the biotechnology and biomedical sectors It has become a subject of increasing importance as new fungi and their associated biomolecules are identified As this discipline comes to the forefront of research in these sectors the requirement for a consolidation of available research approaches is required The First Edition of this book has a few basic and applied protocols With the Second Edition this book provides consolidated information on recent developments and the most widely used mycological methods available in the fields of biochemistry biotechnology and

microbiology The methods outlined offer clear and concise directions to the reader and covers both standard protocols and more applied mycological methods This book provides useful information for undergraduates post graduates and specialists and researchers studying fungal biology *Pitch Determination of Speech Signals* W. Hess, 2012-12-06 Pitch i e fundamental frequency FO and fundamental period TO occupies a key position in the acoustic speech signal The prosodic information of an utterance is predominantly determined by this parameter The ear is more sensitive to changes of fundamental frequency than to changes of other speech signal parameters by an order of magnitude The quality of vocoded speech is essentially influenced by the quality and faultlessness of the pitch measure ment Hence the importance of this parameter necessitates using good and reliable measurement methods At first glance the task looks simple one just has to detect the funda mental frequency or period of a quasi periodic signal For a number of reasons however the task of pitch determination has to be counted among the most difficult problems in speech analysis 1 In principle speech is a nonstationary process the momentary position of the vocal tract may change abruptly at any time This leads to drastic variations in the temporal structure of the signal even between subsequent pitch periods and assuming a quasi periodic signal is often far from realistic 2 Due to the flexibility of the human vocal tract and the wide variety of voices there exist a multitude of possible temporal structures Narrow band formants at low harmonics especially at the second or third harmonic are an additional source of difficulty 3 For an arbitrary speech signal uttered by an unknown speaker the fundamental frequency can vary over a range of almost four octaves 50 to 800 Hz *Cyanobacterial Harmful Algal Blooms: State of the Science and Research Needs* H. Kenneth Hudnell, 2008-03-13 With the ever increasing incidence of harmful cyanobacterial algal blooms this monograph has added urgency and will be essential reading for all sorts of researchers from neuroscientists to cancer research specialists The volume contains the proceedings of the 2005 International Symposium on Cyanobacterial Harmful Algal Blooms and has been edited by H Kenneth Hudnell of the US Environmental Protection Agency It contains much of the most recent research into the subject *Analytical Sample Preparation With Nano- and Other High-Performance Materials* Rafael Lucena, M. Soledad Cárdenas Aranzana, 2021-10-23 Analytical Sample Preparation With Nano and Other High Performance Materials covers advanced sample treatment techniques and the new materials that can be used to boost their performance The evolution of sample treatment over the last two decades has resulted in the development of new techniques and application of new materials This is a must have resource for those studying advanced analytical techniques and the role of high performance materials in analytical chemistry The book explains the underlying principles needed to properly understand sample preparation and also examines the latest materials including nanomaterials that result in greater sensitivity and specificity The book begins with a section devoted to all the various sample preparation techniques and then continues with sections on high performance sorbents and high performance solvents Combines basic fundamental principles and advanced concepts and applications for a comprehensive treatment of sample preparation with new materials Defines nano and other high

performance materials in this context including carbon nanoparticles inorganic nanoparticles ionic liquids supramolecular solvents and more Includes discussion of all the latest advancements and new findings in both techniques and materials used for proper sample preparation
