Re: Starting skip level 1 on 1s with your team

Hi Jennifer,

I wanted to let you know I'm starting something new. Occasionally, I will do skip-level 1 on 1 meetings with your team members to get a pulse on strategy, build relationships, and understand your team members' perspectives.

From these conversations, you may hear new feedback or questions from your team members. That's healthy and to be expected. I'll also share any patterns or common feedback I hear that's relevant to you.

Most importantly, these meetings are to help everyone in our organization work more effectively. I am not going behind your back to second-guess your work nor undermine your leadership.

Let's plan to discuss this more in our next 1 on 1 together.

Thanks

Jason

Succession Management the "How To" Puzzle—Solved! Mark Caruso, 2014-03-18 Organizations have risk management strategies and procedures in place for disaster recovery for employee safety for computer system outages and more But not all organizations have an active succession planning strategy in place which is a risk management plan for the key talent in the organization But consider this how much would it benefit your organization to predict leadership openings using data and discussions in the same way that you predict other business risks How much would it reduce your external recruiting costs to address future leadership gaps by proactively developing your top talent with a sense of urgency to avoid or to lessen the negative impact of a predicted leadership opening when it

arrives The truth is that eventually each employee will leave the organization Therefore the risk management function of succession planning is the most critical risk management function for organizational success Effective succession planning is a process of fitting together the puzzle pieces of organizational talent needs and employee career interests for the purpose of identifying retaining and developing talent for business success This book provides the strategy and the puzzle pieces you will need to plan and to implement an active and effective succession program for your organization Succession management expert Mark Caruso has created easy to use plans and tools you can use to create and implement a succession strategy that achieves results and doesn't sit on a shelf Use the interview guides and the talent meeting agendas in this book to generate rich talent discussions and to make better talent decisions Refer to the leadership models and ideas in this book to build leadership programs that address the competency needs of your top talent and successors Make sure you have an effective succession plan in place for the most critical important asset of your company your talent

Cosmic Ascension Joshua

David Stone, 1998-02-01 Almost all the books on the planet on the subject of ascension are written about planetary ascension However because of the extraordinary times in which we now live in terms of Earth's history there is a new opening and potentiality to also begin one's cosmic ascension process This has never before been available It must be understood as Vywamus has said that in completing our planetary ascension we are no more than one tenth of the way up a ten inch ruler in terms of our cosmic ascension process This includes most of the ascended masters We on Earth who are working to complete our seven levels of initiation must remember that there are 352 levels of initiation to return to the godhead or Father Mother God at the top of creation Most of the Ascended Masters of the entire Spiritual Hierarchy are not beyond the 12th initiation This is not a criticism just a statement of fact The question is What lies beyond the next nine tenths of the ruler and how do we achieve our cosmic ascension as well as our planetary ascension which is no small feature in and of itself Is it for the purpose that the author was guided to write his book
