Claim:

There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

Note Taking Guide Episode 50key

Robert R. Redfield

Note Taking Guide Episode 50key:

Whispering the Strategies of Language: An Psychological Quest through **Note Taking Guide Episode 50key**

In a digitally-driven world where displays reign supreme and immediate interaction drowns out the subtleties of language, the profound strategies and mental subtleties hidden within words frequently go unheard. However, nestled within the pages of **Note Taking Guide Episode 50key** a captivating literary prize sporting with natural emotions, lies an exceptional journey waiting to be undertaken. Written by a talented wordsmith, this marvelous opus attracts viewers on an introspective trip, gently unraveling the veiled truths and profound affect resonating within the material of each word. Within the psychological depths with this emotional review, we can embark upon a heartfelt exploration of the book is core styles, dissect their captivating publishing design, and yield to the strong resonance it evokes serious within the recesses of readers hearts.
