

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Kasum, 2016-05-13 It is no longer the case that it s only society which benefits from CSR actions A corporation actually helps itself when operating sustainably and does well because of its triple bottom line actions The editors of *People Planet and Profit* believe that whilst Corporate Social Responsibility is by now a familiar concept to academics or practitioners insufficient attention has been paid to the end product of CSR in practice which they define in terms of social and economic developmental effect The contributions in this edited volume explain the developmental aspect of CSR from a conceptual perspective and provide empirical evidence of the impact of CSR delivery on stakeholders in different corners of the World The emphasis is on what corporations take from and give back to their stakeholders whilst trying to behave in a corporately responsible fashion Stakeholders including employees customers host communities governments and NGOs have diverse interests and expectations of CSR This gives rise to questions about whether the activities corporations support are the ones today s stakeholders need whether the CSR programmes being delivered are adequate and about the relationship between the corporations view of what constitutes CSR and that of the supposed beneficiaries This book offers thoughtful answers to these questions and assesses the outcomes of corporate activities both in developed and developing countries and regions in terms of economic progress and social and political advancement *Here We May Rest* Silvia Giagnoni, 2017-04-01 Hailed as the most restrictive immigration bill in the nation the Beason Hammon Alabama Taxpayer Citizen Protection Act known as HB 56 went into effect in September 2011 Its intent was to create jobs for Alabamians by making the lives of undocumented immigrants in the state impossible so that they would self deport It failed *Here We May Rest* offers a comprehensive explanation of how and why HB 56 came about and reports on its effects on immigrant communities Author Silvia Giagnoni argues that the legislation was anti immigrant not merely anti illegal immigration as its proponents claimed Building a case against the legalistic framework

through which the bill was promoted Giagnoni dissects the role the media and Fox News specifically played in criminalizing immigrants as well as mainstreaming immigrant haters which created the xenophobic climate that paved the way for the Trump Presidency The new immigrants of Alabama take center stage in the second part of the book reclaiming their role in the cultural social and economic development of the state Giagnoni concludes with an appeal against any form of social segregation because only direct contact massive prolonged equal and intimate as Howard Zinn argued will cure the stereotyping and prejudice that feed ignorance and foster fear

**Sovereign Debt Restructuring and the Law** Sebastian Grund, 2022-12-30 The book sheds light on the perhaps most important legal conundrum in the context of sovereign debt restructuring the holdout creditor problem Absent an international bankruptcy regime for sovereigns holdout creditors may delay or even thwart the efficient resolution of sovereign debt crises by leveraging contractual provisions and in an increasing number of cases by seeking to enforce a debt claim against the sovereign in courts or international tribunals Following an introduction to sovereign debt and its restructuring the book provides the first comprehensive analysis of the holdout creditor problem in the context of the two largest sovereign debt restructuring operations in history the Argentine restructurings of 2005 and 2010 and the 2012 Greek private sector involvement By reviewing numerous lawsuits and arbitral proceedings initiated against Argentina and Greece across a dozen different jurisdictions it distills the organizing principles for ongoing and future cases of sovereign debt restructuring and litigation It highlights the different approaches judges and arbitrators have adopted when dealing with holdout creditors ranging from the denial of their contractual right to repayment on human rights grounds to leveraging the international financial infrastructure to coerce governments into meeting holdouts demands To this end it zooms in on the role the governing law plays in sovereign debt restructurings revisits the contemporary view on sovereign immunity from suit and enforcement in the international debt context and examines how creditor rights are balanced with the sovereign's interest in achieving debt sustainability Finally it advances a new genealogy of holdouts distinguishing between official and private sector holdouts and discussing how the proliferation of new types of uncooperative creditors may affect the sovereign debt architecture going forward While the book is aimed at practitioners and scholars dealing with sovereign debt and its

Wills,2016-04-29 Control of the air is the foundation for all conventional military operations against an adversary with an air defence capability In future warfare will it be possible for Unmanned Combat Air Systems to undertake the tasks and accept most of the risks that until now have been the lot of military aviators China as a Twenty-First Century Naval Power Michael A McDevitt,2020-10-15 Xi Jinping has made his ambitions for the People s Liberation Army PLA perfectly clear there is no mystery what he wants first that China should become a great maritime power and secondly that the PLA become a world class armed force by 2050 He wants this latter objective to be largely completed by 2035 China as a Twenty First Century Naval Power focuses on China s navy and how it is being transformed to satisfy the world class goal Beginning with an

exploration of why China is seeking to become such a major maritime power author Michael McDevitt first explores the strategic rationale behind Xi's two objectives China's reliance on foreign trade and overseas interests such as China's Belt and Road strategy In turn this has created concerns within the senior levels of China's military about the vulnerability of its overseas interests and maritime life lines is a major theme McDevitt dubs this China's sea lane anxiety and traces how this has required the PLA Navy to evolve from a near seas focused navy to one that has global reach a blue water navy He details how quickly this transformation has taken place thanks to a patient step by step approach and abundant funding The more than 10 years of anti piracy patrols in the far reaches of the Indian Ocean has acted as a learning curve accelerator to blue water status McDevitt then explores the PLA Navy's role in the South China Sea and the Indian Ocean He provides a detailed assessment of what the PLAN will be expected to do if Beijing chooses to attack Taiwan potentially triggering combat with America's first responders in East Asia especially the U S Seventh Fleet and U S Fifth Air Force He conducts a close exploration of how the PLA Navy fits into China's campaign plan aimed at keeping reinforcing U S forces at arm's length what the Pentagon calls anti access and area denial A2 AD if war has broken out over Taiwan or because of attacks on U S allies and friends that live in the shadow of China McDevitt does not know how Xi defines world class but the evidence from the past 15 years of building a blue water force has already made the PLA Navy the second largest globally capable navy in the world This book concludes with a forecast of what Xi's vision of a world class navy might look like in the next fifteen years when the 2035 deadline is reached
