Object Lessons explores a fundamental question about literary realism How can language evoke that which is not language and render objects as real entities Drawing on theories of reference in the philosophy of language Jami Bartlett examines novels by George Meredith William Makepeace Thackeray Elizabeth Gaskell and Iris Murdoch that provide allegories of language use in their descriptions characters and plots Bartlett shows how these authors depict the philosophical complexities of reference by writing through and about referring terms the names and descriptions that allow us to see objects At the same time she explores what it is for words to have meaning and delves into the conditions under which a reference can be understood Ultimately Object Lessons reveals not only how novels make references but also how they are about referring

Preaching Like the Prophets Robert A. Carlson, 2017-02-08 The Old Testament prophets are a neglected treasury of biblical examples for pastoral preaching Too often the prophets are misunderstood as focusing on future or social justice issues This book shows that the prophets are essentially preachers very good ones whom we must

learn from By comparing recent rhetorical analysis of the prophets to some of the best of current preaching literature this book shows that the prophets preached the way that we ought to preach It will help you to hear the prophets the same way that a pastor benefits from listening to a seasoned and exceptionally gifted preacher We can benefit not only from what the prophets say but how they say it By seeing how the prophets grab and keep their listeners how they enhance clarity and relevancy how they make truth come alive and how they persevere in their ministry you too can learn to preach like the prophets
