The Manufacturing Services

Introduction: In this activity, you will read about each region of the male and female reproductive systems, answer questions about them, and color them. I encourage you to think that it is important that we realize the purpose of each system.

The male reproductive system functions to produce sperm, provide that sperm with an efficient way to enter the female reproductive tract and fertilize an egg cell, and produce hormones that allow reproduction.

*The formula requires that systems providers be permitted and prepare eggs for fertilization as well as for frozen and transfer to surrogate mothers. If fertilization does occur.
