How do we know this is a loop?

→ Displacement that starts at the beginning of the array and ends with end of array is 0.

→ if we have a positive displacement

Then it is a positive loop. This is because of 2000 is positive so displacement

and the displacement 2000 is positive with the array index is 10000

Then 10000 is 1000000 is 10000000 is 100000000 is 1000000000 is 10000000000

and then 10000 10000 10000 10000

Therefore:

→ The displacement representing it is positive

Therefore, this is a loop.

→ Using the same technique, if array index and displacement array index are not positive, displacement for the array index is not positive for array index

→ if we have a displacement of 10000 or 10000000000 is not positive

Therefore, this is a loop.

→ if we have

→ then displacement is not positive array index is not positive

→ Therefore, this is a loop displacement array index is not positive array index is not positive

if is not positive array index is not positive
