Chijioke,2016-08-05 About the Book Paucity of literature in the area of maritime law in Nigeria was what motivated the author to embark on this project and as such this book is the authors attempt to contribute to the bridging of the gap in knowledge in this area of the law This book is written in simple and understandable English to ensure fluidity of reading It is presented in such a way as to provide information in the areas of commercial law carriage of goods by sea maritime law as well as practical steps in maritime law litigation and related actions Particular consideration has been given to the study of carriage of dangerous goods by sea a subject which existing legal literature in Nigeria merely mentioned in passing Suffice it to say that this book is the first Nigerian legal literature that has explored that subject taking into consideration our domestic laws and international treaties most of which are yet to be ratified and domesticated in Nigeria Though the work has Nigeria as its geographical location it has discussed the subject with comparative analysis of contemporary development in some areas of maritime law with special reference to the United Kingdom and the United States It is the authors belief that this book apart from providing practical guide to maritime litigation in Nigeria would also serve as veritable tool for teaching and studying of maritime law and related courses in Nigerian Universities and other territory institutions and would be immeasurably useful to legal practitioners members of the bench an research fellows Dr C O Chijioke Faculty of Law Abia

India Infrastructure Report 2012 Idfc Foundation, 2016-04-08 Today India's education sector remains a victim of poor policies restrictive regulations and orthodoxy Despite being enrolled in schools children are not learning adequately Increasingly parents are seeking alternatives through private inputs in school and tuition Students are dropping out from secondary school in spite of high financial returns of secondary education and those who do complete it have inferior conceptual knowledge Higher education is over regulated and under governed keeping away serious private providers and reputed global institutes Graduates from high schools colleges and universities are not readily employable and few are

The Impact of the Crisis on the EU Perspective of the Western Balkans

Rumiana Jeleva,2012-04-29 Please find a free PDF download available here http://martenscentre.eu/publications/impact_crisis_eu_perspective_western_balkans Like elsewhere in Europe the crisis has affected economic developments in the Western Balkans from Croatia in the north to Albania in the south The countries in the region face difficulties such as high unemployment decreased availability of bank credit and reduced trade Furthermore the inability of their political institutions to deal immediately with these economic challenges has reinforced the negative effects of the crisis What does this mean for the Western Balkans accession to and integration within the EU This paper by Rumiana Jeleva shows that improving the economic situation is an essential precondition for public support for EU integration At the same time it argues that the pro European orientation of the Western Balkans ensures that they will continue to look towards the EU rather than to the US or Russia This is demonstrated by the fact that they are not merely taking measures to recover from the crisis they are taking measures that are aligned with European regulations The Western Balkan countries may have a long way to go to become EU members but they have proven their commitment to a future within the EU by their pro European solutions to the crisis This makes it all the more important for the EU even in this time of crisis to continue to support the accession process and bring the Western Balkans closer to the EU
