 teachers are skilled in providing opportunities for the progression of children's learning it is sometimes without fully
 understanding the theory behind it With greater insight into what is currently known about the processes of learning and
 about individual learners teachers are better equipped to provide experiences and situations that are more likely to lead to
 effective acquisition of knowledge concepts and skills Ways of Learning has been widely used and now fully updated it seeks
 to provide further insight into the ways in which learning takes place which teachers can make use of in their planning and
 teaching including an overview of learning behaviourism and the beginning of theory cognitive and constructivist learning
 multiple intelligences and learning styles difficulties with learning the influence of neuropsychology other theories
 philosophies and names relating theory to practice The fourth edition of this book includes developments in areas covered in
 the preceding editions as well as expanding on certain topics to bring about a wider perspective most notably a new
 consideration of learning styles and a new chapter detailing important thinkers and writers from the history of education and
 their continuing influence along with other theories ideas and thoughts not included in the rest of the book The book also
 reflects changes in government policy and is closely related to new developments in practice Written for trainee teachers
 serving teachers and others interested in learning for various reasons Ways of Learning serves as a valuable introduction for
