Essentials of Business Research Methods Joe Hair Jr., Michael Page, Niek Brunsveld, Adam Merkle, Natalie Cleton, 2023-07-31 Essentials of Business Research Methods provides an accessible and comprehensive introduction to research methods and analytical techniques for business students. The authors offer a straightforward hands-on approach to the vital managerial process of gathering and using data to make relevant and timely business decisions. Facility Management Practices Solomon Pelumi Akinbogun, Clinton Ohi Aigbavboa, Oluwaseun Tope Akinbogun, 2024-10-30 This book explores the management of public facilities and the wider issues around it, with examples from educational, health, and public spaces. Human activities in every economy require facilities that must be effectively managed for optimal performance. Facility management in the public and private sector in developing countries requires close examination to explain the reasons for things going wrong. From the economist's point of view, some facilities are better provided by the public sector to maintain inclusivity and protect the social welfare of vulnerable people. For example, in Nigeria, a good number of public facilities such as schools and health facilities are underperforming because of poor and ineffective management. This provides an opportunity for the private sector. However, a majority of the population remains deprived of access because of lack of affordability. The research in this book was carried out to assess what could be done to ensure that essential services are not left entirely in the private sector and scope out possible synergies between the public and private. The book is useful to policy makers at all levels of the public and private sectors.
