

Research Paper Assignment

Compose an essay that thoroughly addresses your proposed topic. Refer back to your prospectus. Clearly identify your topic in a well-developed thesis, and then support that thesis by presenting your research in an orderly, cohesive manner that ends in a well-formatted conclusion. The thesis is the road map for your essay and the conclusion needs to bring it to a logical end that clearly addresses the thesis.

Field and library research are required for this paper. Think about whom to interview as you narrow your focus. Prepare your interview questions carefully and, if you decide to conduct a survey, prepare a draft of that at the same time. Refer to your text for reminders about interviews and surveys as well as other types of field research. This essay assignment includes research components to help you better understand what will be required of you later in your academic career.

Each component of this paper will receive a grade. It is extremely important that you complete each section according to instructions and submit each section *when it is due*. Make it your very best effort insofar as grammar, punctuation, and composition skills are concerned. The components of this assignment are listed below along with their value towards the 200 point project total.

Component	Value	Length	Due Date
Prospectus	50 points	1 page	April 8
Research Logs	25 points	as many as it takes	April 22
Annotated Bibliography	25 points	as many as it takes	April 22
Essay includes Works Cited	100 points	4 pages + Works Cited	May 6*

**May 6 is our final exam night. You may opt to complete your paper in time for our last class on April 29. That is fine with me as that will give you time to study for your other final exams.*

The million dollar question: How many sources do I have to have? The answer is a minimum of five scholarly sources. **Types of resources required for this paper:**

Book	One book other than your textbook; use the Lane Library
Peer-Reviewed Journal Articles	One scholarly article
Web Site	One Internet Resource approved by me
Field Research	One interview, one close observation, or one survey**
Other	One additional resource from the list above

******These types of research are fun and rewarding. You gain more than just knowledge about your topic from this type of research.

Writing Effective Course Assignments Elia Shabani Mligo, 2017-05-11 Non degree and undergraduate students are both inexperienced essay writers who need close guidance to become effective writers One of the puzzles which they encounter at the college and university after reporting for studies is the course assignments offered to

them by their lecturers which demand them to be critical thinkers and argumentative essay writers In most colleges and universities lecturers provide to students broad questions to answer in the form of essays either in group or individual assignments How should they turn the broad assignment questions provided to them by their lecturers into specific researchable topics for essays How should they handle literature in order to obtain valuable information to answer the provided question How should they construct an informed and convincing argument using the collected information as evidence This book concerns these and other related questions With its clear illustrations the book is designed to be a self study guide and to offer solutions to many struggling students in colleges and universities At the same time the book can be helpful for lecturers to instruct their students how to write effective course assignments in their respective courses **The**

International Student's Guide to Writing a Research Paper Janine Carlock, Maeve Eberhardt, Jaime Horst, Peter Kolenich, 2017-06-13 The International Student's Guide to Writing a Research Paper is a reference text for undergraduate students and those in ESL or bridge courses who are writing a research paper for the first time This book is partly an update of Writing a Research Paper by Lionel Menasche 1998 and partly a companion to The ESL Writer's Handbook Each section of the book includes a discrete task called a Building Block which requires students to apply the skills learned toward the development of their own paper This step by step approach allows students to construct knowledge as they become more familiar with the process making writing a research paper a less intimidating task Special features This guide uses simple direct language for those for whom writing a research paper is new Most example writing is from international students in an ESL program or first year writing class including two sample papers one in APA and one in MLA A section on responding to instructor feedback to provide students with the tools to read and understand comments and use them to improve the first draft A subsection dedicated to constructing clear and cohesive paragraphs and sentences The guide includes citation and style examples in MLA 8th edition [UGC NET History Paper II Chapter Wise Notebook | Complete Preparation Guide](#)

Project Randell K. Schmidt, Emilia N. Giordano, Geoffrey M. Schmidt, 2015-08-26 Aligned with the Common Core this book enables teachers and librarians to develop lessons and workshops as well as to teach high school students how to research and write a humanities paper using a guided inquiry approach Being able to use the inquiry process to successfully research write and prepare papers and others types of presentations is not only necessary for a student's preparation for collegiate work but is truly a requisite life skill This book provides a solid guided inquiry curriculum for cultivating the skills needed to properly investigate a subject in the humanities interrogate both textual and non textual sources interpret the information

develop an understanding of the topic and effectively communicate one's findings. It is a powerful and practical guide for high school humanities teachers, school librarians, community college humanities teachers and librarians, and early college level humanities instructors as well as for high school and college students who want to learn how to conduct and write up humanities research. Part one comprises a teacher's practicum that explains the power of guided inquiry. Part two contains student's workshops with instructions and materials to conduct a guided humanities project and paper on the high school level. The third part provides materials for a professional development session for this assignment as well as assessment tools and other supplementary materials such as student handouts. Based on the authors' 15 years experience in teaching guided inquiry, the 20 workshops in the book use a step-by-step constructivist strategy for teaching a sophisticated humanities project that enables college readiness.

Engaging Ideas John C. Bean, Dan Melzer, 2021-06-09 Use your course's big ideas to accelerate students' growth as writers and critical thinkers. The newly revised third edition of *Engaging Ideas* delivers a step-by-step guide for designing writing assignments and critical thinking activities that engage students with important subject matter questions. This new edition of the celebrated book, now written by the co-author team of Bean and Melzer, uses leading and current research and theory to help you link active learning pedagogy to your courses' subject matter. You'll learn how to design formal and informal writing assignments that guide students toward thinking like experts in your discipline. Use time-saving strategies for coaching the writing process and handling the paper load, including alternatives to traditional grading such as portfolio assessment and contract grading. Help students use self-assessment and peer response to improve their work. Develop better ways than the traditional research paper to teach undergraduate reading and research. Integrate social media, multimodal genres, and digital technology into the classroom to promote active learning. This book demonstrates how writing can easily be integrated with other critical thinking activities such as inquiry discussions, simulation games, classroom debates, and interactive lectures. The reward of this book is watching students come to class better prepared, more vested in the questions your course investigates, more apt to study purposefully, and more likely to submit high quality work. Perfect for higher education faculty and curriculum designers across all disciplines, *Engaging Ideas* will also earn a place in the libraries of graduate students in higher education.
