Social Problem Research Paper - 100 points (Approximate due date: _____)

Through our investigation of conflict in novels, short stories, and plays, we have met with many types of problems. The range from disagreements between small groups to large scale plans of violent action. While we act as witnesses through the pages of our texts, we remain detached from each issue. It is time for this to change!

What are you going to do about it?

You will select a **current social problem** of your choice (all topics must gain teacher approval before work can begin) and you will learn to consult a variety of sources to learn more about this important issue and **persuade** readers to agree with your proposed solution.

The goal of this paper is to help you become a better writer and to introduce you to writing and research formats that will follow you through your high school career. Each step in the process is important, so be sure to keep this packet and all materials safe.

P.O.W.E.R. Writing Model:

We will work together in small steps to put together your research paper. The steps are as follows:

PLANNING- 20 pts

You will conduct preliminary research about topics of interest at the Carlynton Library and on computers, and you will brainstorm to generate ideas to select a topic.

ORGANIZING- 10 pts

Once you have ideas, you will come up with a thesis statement and three supportive topics. You will also create an outline to help you visualize your paper with transitions.

WRITING- 20 pts

You will formulate a **rough draft** that follows the five-paragraph format. Your draft will include valuable quotes and information from sources with citations.

EDITING- 10 pts

You will use evaluation comments from the teacher and your peers to make changes and corrections to your work. If needed, you will complete any follow-up research and finalize your revised cited page.

REWRITING - 40 pts

You will rewrite your paper and submit your work for a final grade. This final copy will show off your hard work and focus and must include a cover page and works cited page.

You will submit work for a grade at various steps along the way to check-in on progress and comprehension.

PLEASE REMEMBER: If at anytime you have questions or concerns, please ask me! The research paper may be difficult to create, but the process should be easy because we will take it one step at a time. I am here to help you do the very best you can and to feel proud about your work!

Research Paper Problem Solving

S Ashworth

Research Paper Problem Solving:

Mathematical Problem Solving Frank K. Lester, Joe Garofalo, 1982 This set of papers was originally developed for a conference on Issues and Directions in Mathematics Problem Solving Research held at Indiana University in May 1981 The purpose is to contribute to the clear formulation of the key issues in mathematical problem solving research by presenting the ideas of actively involved researchers An introduction provides an overview of each paper The papers focus on the psychology of mathematical problem solving R E Mayer knowledge organization E A Silver implications from information processing psychology D J Briars building bridges between psychological and mathematics education research F K Lester Jr measuring problem solving outcomes G A Goldin a model for elementary teacher training in problem solving J F LeBlanc applied problem solving R Lesh and M Akerstrom a concept learning perspective R J Shumway and a statement of issues H L Schoen MNS

Teaching and Learning Mathematical Problem Solving Edward A. Silver, 2013-04-03 A provocative collection of papers containing comprehensive reviews of previous research teaching techniques and pointers for direction of future study Provides both a comprehensive assessment of the latest research on mathematical problem solving with special emphasis on its teaching and an attempt to increase communication across the active disciplines in this area

Educational Research and Innovation The Nature of Problem Solving Using Research to Inspire 21st Century Learning OECD, 2017-04-11 Solving non routine problems is a key competence in a world full of changes uncertainty and surprise where we strive to achieve so many ambitious goals But the world is also full of solutions because of the extraordinary competences of humans who search for and find them

Problem Solving Courts Richard L. Wiener, Eve M. Brank, 2013-07-11 In order to make the criminal court system more effective there has been a growing trend to have courts participate in what is essentially a rehabilitation strategy Such courts are often referred to as problem solving because they are working on root causes of criminal behavior as part of the dispensation of justice This major shift in the role of the courts means that the court works closely with prosecutors public defenders probation officers social workers and other justice system partners to develop a strategy that pressures offenders to complete a treatment program which will ultimately hopefully prevent recidivism Research has shown that this kind of strategy has a two fold benefit It has been successful in helping offenders turn their lives around which leads to improved public safety and the ultimate saving of public funds This book is the first to focus exclusively on problem solving courts and as such it presents an overview of the rationale and scientific evidence for such courts as well as individual sections on the key areas in which these courts are active Thus there is specific attention paid to domestic violence juvenile criminality mental health and more Throughout research findings are incorporated into general discussions of these courts operate and ideally what they are trying to accomplish There is also discussion of how such courts should evolve in the future and the directions that further research should take

Research in Education, 1970

Soft Computing for Problem Solving Manoj Thakur, Samar Agnihotri, Bharat Singh

Rajpurohit, Millie Pant, Kusum Deep, Atulya K. Nagar, 2023-03-01 This book provides an insight into the 11th International Conference on Soft Computing for Problem Solving SocProS 2022 This international conference is a joint technical collaboration of the Soft Computing Research Society and the Indian Institute of Technology Mandi This book presents the latest achievements and innovations in the interdisciplinary areas of Soft Computing Machine Learning and Data Science It brings together the researchers engineers and practitioners to discuss thought provoking developments and challenges in order to select potential future directions It covers original research papers in the areas including but not limited to algorithms artificial neural network deep learning statistical methods genetic algorithm and particle swarm optimization and applications data mining and clustering computer vision medical and healthcare finance data envelopment analysis business and forecasting applications This book is beneficial for young as well as experienced researchers dealing across complex and intricate real world problems for which finding a solution by traditional methods is a difficult task *Mathematical Problem Solving and New Information Technologies* Joao P. Ponte, Joao F. Matos, Jose M. Matos, Domingos Fernandes, 2013-06-29 A strong and fluent competency in mathematics is a necessary condition for scientific technological and economic progress However it is widely recognized that problem solving reasoning and thinking processes are critical areas in which students performance lags far behind what should be expected and desired Mathematics is indeed an important subject but is also important to be able to use it in extra mathematical contexts Thinking strictly in terms of mathematics or thinking in terms of its relations with the real world involve quite different processes and issues This book includes the revised papers presented at the NATO ARW Information Technology and Mathematical Problem Solving Research held in April 1991 in Viana do Castelo Portugal which focused on the implications of computerized learning environments and cognitive psychology research for these mathematical activities In recent years several committees professional associations and distinguished individuals throughout the world have put forward proposals to renew mathematics curricula all emphasizing the importance of problem solving In order to be successful these reforming intentions require a theory driven research base But mathematics problem solving may be considered a chaotic field in which progress has been quite slow Systematic Complex Problem Solving in the Age of Digitalization and Open Innovation Denis Cavallucci, Stelian Brad, Pavel Livotov, 2020-10-09 This book constitutes the refereed proceedings of the 20th International TRIZ Future Conference on Automated Invention for Smart Industries TFC 2020 held in Cluj Napoca Romania in October 2020 and sponsored by IFIP WG 5.4 The conference was held virtually The 34 full papers presented were carefully reviewed and selected from 91 submissions They are organized in the following thematic sections computing TRIZ education and pedagogy sustainable development tools and techniques of TRIZ for enhancing design TRIZ and system engineering TRIZ and complexity and cross fertilization of TRIZ for innovation management Research Methods in Physical Activity Jerry R. Thomas, Philip Martin, Jennifer L. Etnier, Stephen J. Silverman, 2023 Research Methods in Physical Activity Eighth Edition offers step by step

information for every aspect of the research process providing guidelines for research methods so that students feel capable and confident using research techniques in kinesiology and exercise science disciplines **Resources in Education**
