You want to know how to manage shared data across many business functions. In order to do that, you need the answer to how will you securely expose data to business users and external partners. The problem is, do you have business as usual in the Salesforce services and solution market, which makes you feel asking how does your cloud provider support data integrity? We believe there is an answer to problems like how will business process and behavioral change be managed. We understand you need to make a successful transition to business process automation in the cloud, which is why an answer to what cloud services does Salesforce offer is important. Here's how you do it with this book: 1. Gain more business from existing clients. 2. Reimagine your future while accelerating business today. 3. Make software security metrics meaningful to business and technical application owners. So how will usage of cloud services be charged? This Salesforce Administrator Critical Questions Skills Assessment book puts you in control by letting you ask what's important and in the meantime, ask yourself how do you manage shared data across many business functions.
