

Letter Request to Travel for Government Employees

September 27, 2019

Honorable Mayor
Quezon City

Dear Sir,

Greetings in the name of public service!

This is to respectfully seek for your permission to allow us to avail a short vacation leave. We had the chance to book for a travel to Korea on October 10-22 of this year and we hope you will allow us as we commit not to leave any work undone or cause any delay in our respective responsibilities as employees of the City. We acknowledge that this request is personal and that no government fund will be spent in connection with this travel.

Thank you for your support and understanding Sir.

More power and God bless.

Very truly yours,

The Unaccountable State of Surveillance Clive Norris, Paul de Hert, Xavier L'Hoiry, Antonella Galetta, 2017-01-24 This book examines the ability of citizens across ten European countries to exercise their democratic rights to access their personal data It presents a socio legal research project with the researchers acting as citizens or data subjects and using ethnographic data collection methods The research presented here evidences a myriad of strategies and discourses employed by a range of public and private sector organizations as they obstruct and restrict citizens attempts to exercise their informational rights The book also provides an up to date legal analysis of legal frameworks across Europe concerning access rights and makes several policy recommendations in the area of informational rights It provides a unique and unparalleled study of the law in action which uncovered the obstacles that citizens encounter if they try to find out what personal data public and private sector organisations collect and store about them how they process it and with whom they share it These are simple questions to

ask and the right to do so is enshrined in law but getting answers to these questions was met by a raft of strategies which effectively denied citizens their rights The book documents in rich ethnographic detail the manner in which these discourses of denial played out in the ten countries involved and explores in depth the implications for policy and regulatory reform
