# Differentiation for Students with a Learning Disability: Online-LIVE via ZOOM(Five-Hour Event)

## About the course

The SSTUWA, in partnership with TLN in Melbourne, are pleased to offer this online learning opportunity. Teachers in 21st century classrooms are challenged to ensure that all students can achieve success. The challenge is increased when students in the classroom have learning disabilities. All teachers need the opportunity to increase their knowledge about the major learning disabilities and to broaden their teaching strategies to differentiate to meet the needs of all students in the classroom. In this full day program one of Australia's leading teachers on working with students with learning disabilities will outline approaches to self-regulation and sensory processing, behavioural issues, and knowledge acquisition, experienced by those students with learning disability. There will be a focus on ASD and ADHD but the presenter has experience working with students with a wide range of learning disabilities. It is a practical, classroom focused course. The teaching strategies are tried and tested - used by the presenter in her own classroom. You will also have the opportunity to develop and share your own resources, programs and behaviour plans during the session.
