

# Warehouse Operations

Effective warehouse operations require significant managerial attention due to the movement of raw materials and finished goods.

**1**

## Receiving

Unloading is the first step and is accomplished with a lift truck and manual labor.

**2**

## In-Store Movement

This involves handling products within the warehouse, from their receipt to stacking in designated locations.

**3**

## Order Assembly

This involves systematically grouping materials, and products for efficient order selection.

**4**

## Dispatch & Shipping

The process's final step involves verifying the ready order and its movement to the Dispatch area for stacking and loading onto vehicles for transportation.
