Chevening Leadership Essay Winner

September 3, 2020 in [Chevening essays](#) Reading Time: 2 mins read

Chevening is looking for individuals that will be future leaders or influencers in their home countries. Explain how you meet this requirement, using clear examples of your own leadership and influencing skills to support your answer.(minimum word count:50 words, maximum word count: 500 words)

For me, leadership is an action in leading myself and others towards common goals.Leadership must begin within me before I can lead the others. A good leader must have integrity to his commitment,be open-minded to changes, and know where to go.

During my undergraduate, I led an event division in the Christian Societyin my faculty for six months. I worked with four co-workers and we were responsible for organising weekly services.For me, doing voluntary work is the way I contribute to the community and hence,I dedicated extra 2-3hours per day to ensure that we did a great work. Although the division was small, at the beginning there were a lot of internal problems where there was a disagreement between my co-workers. Realising the potential damages it might cause, I tried to mediate them by personal communication. It was challenging because this was my first time dealing with people with egocentric personalities. Nonetheless,I was sure that as a leader, I should be able to lead others to reach for the good of our society.Eventually, by intensifying the communication I was able to reconcile them.

My involvement in the Christian Society did not end there. After stepping down from the event division, I was given a new challenge to organise an annual retreat event. The previous events were less effective because there were too many activities. Learning from the past, I decided that changes were necessary.Although I managed to convince the other committee members about the changes,it was initially difficult to persuade the senior member of this society,who was resistant tothechanges.It was even more difficult considering that she was also a lecturer in my university where seniority was an issue. However,the success of the event was more important

The Young Composers Lucille M. Schultz,1999-04-28 Lucille M Schultz s The Young Composers Composition s Beginnings in Nineteenth Century Schools is the first full length history of school based writing instruction Schultz demonstrates that writing instruction in nineteenth century American schools is much more important in the overall history of writing instruction than we have previously assumed Drawing on primary materials that have not been considered in previous histories of writing instruction little known textbooks and student writing that includes prize winning essays journal entries letters and articles written for school newspapers Schultz shows that in nineteenth century American schools the voices of the British rhetoricians that dominated college writing instruction were attenuated by the voice of the Swiss education reformer Johann Heinrich Pestalozzi Partly through the influence of Pestalozzi s thought writing instruction for children in schools became child centered not just a replica or imitation of writing instruction in the colleges It was also in these nineteenth century American schools that personal or experience based writing began and where the democratization of writing was institutionalized These schools prefigured some of our contemporary composition practices free writing peer editing and the use of illustrations as writing prompts It was in these schools in fact where composition instruction as we know it today began Schultz argues This book features a chapter on the agency of textbook iconography which includes illustrations from nineteenth century composition books as well as a cultural analysis of those illustrations Schultz also includes a lengthy bibliography of nineteenth century composition textbooks and student and school newspapers
