Extruding Plastics D.V. Rosato, 2013-11-27 Worldwide extrusion lines successfully process more plastics into products than other processes by consuming at least 36 wt% of all plastics. They continue to find practical solutions for new products and or problems to meet new product performances. This book with its practical industry reviews is a unique handbook the first of its kind that covers over a thousand of the potential combinations of basic variables or problems with solutions that can occur from upstream to downstream equipment. Guidelines are provided for maximizing processing efficiency and operating at the lowest possible cost.
