beauty economy Angela B V McCracken considers who benefits and who loses from beauty globalization and what this means for gender norms among youth Weaving together fascinating ethnographic research on beauty practices and insights from political economy theory the book presents a feminist analysis of the global economy of beauty Rather than a sign of frivolity the beauty economy is intimately connected to youth s social and economic development Cosmetic makeovers have become a modern rite of passage for girls enabling social connections and differentiations as well as entrepreneurial activities The global beauty economy is a phenomenon generated by young people mostly women laboring in teaching and consuming beauty and eager for belonging and originality using every mechanism at their disposal to enhance their appearance As McCracken shows globalization is not homogenizing beauty standards to a Western ideal rather it is diversifying beauty standards The Beauty Trade explains how globalization combined with youth s desires for uniqueness is enabling the spread of a diversity of beauty cultures including alternative visions of gender appropriate looks and behavior
