load calculation of the most loaded rolling element for a - Jun 07 2022

oct 3 2020 this paper presents a new model for calculation of load for the most loaded rolling element in a rolling bearing with internal radial clearance the calculation is based on a so called load factor by multiplying this factor by the value of the external radial load the load transferred by the most loaded rolling element of the bearing is obtained

pdf method of load calculation of electrical drives of rolling - May 18 2023

may 1 2018 an improved calculation method for rolling pressure and load torque of electrical drive engine is suggested further this method considers peculiar strain of product in high deformation zones

rolling iit bombay - Sep 22 2023
