Sample Testing An Interpreter:

Assessing legal interpreter quality through testing and certification: The Qualitas Project Cynthia Giambruno, 2014
Respect for the procedural rights of any individual involved in police or judicial matters is a basic tenet of a modern and sound system of justice. Providing legal interpreting services to suspects, defendants, victims and witnesses who are not proficient in the language in which legal matters are being conducted is a broadly accepted practice throughout the EU. However, it is only recently that emphasis has been placed on the quality of the services provided. EU Directive 2010/64/EU through its mandate for quality in legal interpreter and translating services has provided the impetus needed to reexamine current practices and work towards common standards and practices across the EU that would enhance mutual trust and allow for reciprocity and the sharing of expertise. This volume reflects the deliberations of a panel of experts from the fields of legal interpreting, testing theory and public policy who agree that the most effective means of ensuring quality is through testing and certification. It addresses issues related to the assessment of the skill sets and knowledge required to ensure high quality legal interpreting and offers practical guidance and advice on the design and administration of a valid and reliable certification process.

Teaching and Testing Interpreting and Translating Valerie Pellatt, Kate Griffiths, Shao-Chuan Wu, 2010
The book presents a range of theoretical and practical approaches to the teaching of the twin professions of interpreting and translating covering a variety of language pairs. All aspects of the training process are addressed from detailed word level processing to student concerns with their careers and from the setting of examinations to the standardisation of marking. The articles show very clearly the strengths and needs, the potential and vision of interpreter and translator training as it exists in countries around the world. The experience of the authors who are all actively engaged in training interpreters and translators demonstrates the innovative practical and reflective approaches which are proving invaluable in the formation of the next generation of professional translators and interpreters. While many of them are being trained in universities they are being prepared for a life in the real world of business and politics through the use of authentic texts and tools and up to date methodology.

Basic Skills in Interpreting Laboratory Data Mary Lee, 2013-06-01
Basic Skills in Interpreting Laboratory Data Fifth Edition is the classic and most popular pharmacy laboratory text because it is the only reference on this subject written by pharmacists for pharmacists. Students find this guide a clear and useful introduction to the fundamentals of interpreting laboratory test results. The book enhances the skills pharmacists need by providing essential information on common laboratory tests used to screen for or diagnose diseases and monitor the effectiveness and safety of treatment and disease severity. Each chapter contains learning objectives, case studies, bibliographies and charts that summarize the causes of high and low test results. New for this edition: Updated and expanded Quick View tables in each chapter now match those in the popular quick reference *Interpreting Laboratory Data: A Point of Care Guide*. New glossary of acronyms is right up front for a streamlined reference. Normal value ranges of all tests have been standardized by an expert.
