Ancient Literacies William A Johnson, Holt N Parker, 2009-02-05 This timely volume attempts to formulate interesting new ways of talking about the entire concept of literacy in the ancient world literacy not in the sense of whether 10% or 30% of people in the ancient world could read or write but in the sense of text oriented events embedded in a particular socio cultural context The volume is intended as a forum in which selected leading scholars rethink from the ground up how students of classical

antiquity might best approach the question of literacy in the past and how that investigation might materially intersect with changes in the way that literacy is now viewed in other disciplines

Readers and Reading Culture in the High Roman Empire William A. Johnson, 2010-06-03 In *Readers and Reading Culture in the High Roman Empire* William Johnson examines the system and culture of reading among the elite in second century Rome. The investigation proceeds in case study fashion using the principal surviving witnesses beginning with the communities of Pliny and Tacitus with a look at Pliny's teacher Quintilian from the time of the emperor Trajan. Johnson then moves on to explore elite reading during the era of the Antonines including the medical community around Galen, the philological community around Gellius and Fronto with a look at the curious reading habits of Fronto's pupil Marcus Aurelius and the intellectual communities lampooned by the satirist Lucian. Along the way evidence from the papyri is deployed to help to understand better and more concretely both the mechanics of reading and the social interactions that surrounded the ancient book. The result is a rich cultural history of individual reading communities that differentiate themselves in interesting ways even while in aggregate showing a coherent reading culture with fascinating similarities and contrasts to the reading culture of today.

The Gospel as Manuscript Chris Keith, 2020 The written accounts of the Jesus tradition in the Gospels have taken a far superior position in the Christian faith to any oral tradition. In *The Gospel as Manuscript* Chris Keith offers a new material history of the Jesus tradition's journey from voice to page showing that the introduction of manuscripts played an underappreciated but crucial role in the reception history of the Gospel. Revealing a vibrant period of competitive development of the Jesus tradition wherein the material status of the tradition frequently played as important a role as the ideas that it contained, Keith offers one of the most thorough considerations of the competitive textualization and public reading of the Gospels.

Mark, Manuscripts, and Monotheism Dieter Roth, Chris Keith, 2015-02-26 *Mark Manuscripts and Monotheism* is organized into three parts: Mark's Gospel Manuscripts and Textual Criticism and Monotheism and Early Jesus Devotion. With contributors hailing from several different countries and including both senior and junior scholars, this volume contains essays penned in honor of Larry W. Hurtado by engaging and focusing upon these three major emphases in his scholarship. The result is not only a fitting tribute to one of the most influential New Testament scholars of present times but also a welcome survey of current scholarship.

Public Reading in Early Christianity Dan Nässelqvist, 2015-11-02 In *Public Reading in Early Christianity* Lectors Manuscripts and Sound in the Oral Delivery of John 14, Dan Nässelqvist investigates the oral delivery of New Testament writings in early Christian communities of the first two centuries C.E. He examines the role of lectors and public reading in the Greek and Roman world as well as in early Christianity. Nässelqvist introduces a method of sound analysis which utilizes the correspondence between composition and delivery in ancient literary writings to retrieve information about oral delivery from the sound structures of the text being read aloud. Finally, he applies the method of sound analysis to John 14 and presents the implications for our understanding of public reading and the Gospel of John.

Comparative Textual Media

N. Katherine Hayles, Jessica Pressman, 2013-12-01 For the past few hundred years Western cultures have relied on print When writing was accomplished by a quill pen inkpot and paper it was easy to imagine that writing was nothing more than a means by which writers could transfer their thoughts to readers The proliferation of technical media in the latter half of the twentieth century has revealed that the relationship between writer and reader is not so simple From telegraphs and typewriters to wire recorders and a sweeping array of digital computing devices the complexities of communications technology have made mediality a central concern of the twenty first century Despite the attention given to the development of the media landscape relatively little is being done in our academic institutions to adjust In Comparative Textual Media editors N Katherine Hayles and Jessica Pressman bring together an impressive range of essays from leading scholars to address the issue among them Matthew Kirschenbaum on archiving in the digital era Patricia Crain on the connection between a child's formation of self and the possession of a book and Mark Marino exploring how to read a digital text not for content but for traces of its underlying code Primarily arguing for seeing print as a medium along with the scroll electronic literature and computer games this volume examines the potential transformations if academic departments embraced a media framework Ultimately Comparative Textual Media offers new insights that allow us to understand more deeply the implications of the choices we and our institutions are making Contributors Stephanie Boluk Vassar College Jessica Brantley Yale U Patricia Crain NYU Adriana de Souza e Silva North Carolina State U Johanna Drucker UCLA Thomas Fulton Rutgers U Lisa Gitelman New York U William A Johnson Duke U Matthew G Kirschenbaum U of Maryland Patrick LeMieux Mark C Marino U of Southern California Rita Raley U of California Santa Barbara John David Zuern U of Hawai i at M noa

Skepticism and Belonging in Shakespeare's Comedy Derek Gottlieb, 2015-08-11 This book recovers a sense of the high stakes of Shakespearean comedy arguing that the comedies no less than the tragedies serve to dramatize responses to the condition of being human responses that invite scholarly investigation and explanation Taking its cue from Stanley Cavell s influential readings of Othello and Lear the book

argues that exposure or vulnerability to others is the source of both human happiness and human misery while the tragedies showcase attempts at the evasion of such vulnerability through the self defeating pursuit of epistemological certainty the comedies present the drama and the difficulty of turning away from an epistemological register in order to productively respond to the fact of our humanity Where Shakespeare's tragedies might be viewed in Cavellian terms as the drama of skepticism Shakespeare's comedies then exemplify the drama of acknowledgement As a parallel and a preamble Gottlieb suggests that the field of literary studies is itself a site of such revealing responses where competing research methods strive to foreclose upon or alternatively rejoice in epistemological uncertainty such commitments bespeak an urge to avoid or circumvent the human in the practice of scholarship Reading Shakespeare's comedies in tandem with a defactoist view of teaching and learning points in the direction of a new humanism one that eschews both the relativism of old deconstruction and contemporary Presentism and the determinism of various kinds of structural accounts This book offers something new in scholarly and popular understanding of Shakespeare's work doing so with both philosophical rigor and literary attention to the difficult work of reading
