Educational Curricula Jennifer N. Casey,2008 In formal education a curriculum plural curricula is the set of courses and their content offered at a school or university As an idea curriculum stems from the Latin word for race course referring to the course of deeds and experiences through which children grow and mature in becoming adults Crucial to the curriculum is the definition of the course objectives that usually are expressed as learning outcomes and normally include the program s assessment strategy These outcomes and assessments are grouped as units or modules and therefore the curriculum comprises a collection of such units each in turn comprising a specialised specific part of the curriculum So a typical curriculum includes communications numeracy information technology and social skills units with specific specialised teaching of each This book presents research on educational curricula from around the world *BECE Social Studies for JSS*. Kofi B. Quansah,2005 *Curriculum Renewal for Islamic Education* Nadeem A. Memon,Mariam Alhashmi,Mohamad Abdalla,2021-05-10 This book demonstrates why and how it is necessary to redesign Islamic Education curriculum in the K 12 sector globally From Western public schools that integrate Muslim perspectives to be culturally responsive to public and private schools in Muslim minority and majority contexts that teach Islamic studies as a core subject or teach from an Islamic perspective the volume highlights the unique global and sociocultural contexts that support the disparate trajectories of Islamic Education curricula Divided into three distinct parts the text discusses current Islamic education curricula and considers new areas for inclusion as part of a general renewal effort that includes developing curricula from an Islamic worldview and the current aspirations of Islamic education globally By providing insights on key concepts related to teaching Islam case studies of curriculum achievements and pitfalls and suggested processes and pillars for curriculum development contributors present possibilities for researchers and educators to think about teaching Islam differently This text will benefit researchers doctoral students and academics in the fields of secondary education Islamic education and curriculum studies Those interested in religious education as well as the sociology and theory of religion more broadly will also enjoy this volume African Journal of Studies in Education ,2006-11 **Zaria Educator** ,2005-08 **Lagos State Education Year Book** ,1997 **The New Statesman** ,1918 *An Introduction to Integrated Social Science for Africa, Social Studies for Advanced Students: Man's economic activities, government and business organization* ,1988 *Proceedings of the 5th Borneo International Conference (BICAME 2024): Symposium on Digital Innovation, Sustainable Design and Planning (DSP)* Musyarofah Musyarofah,Samsu Dlukha Nurcholik,M. Ihsan Alfani Putera,Ade Wahyu Yusariarta Putra Parmita,Riza Hadi Saputra,Alfi Suci Dirgantari,Rulliannor Syah Putra,2024-12-23 This book is an open access Sustainability at its core is the ability to meet the needs of the present without compromising the ability of future generations to meet their own needs This principle recognizes the interconnectedness of environmental social and economic systems and seeks to create a harmonious balance among them As our global population expands and resource demands increase the imperative for sustainable

development becomes more critical Climate change biodiversity loss and resource depletion are urgent challenges that require innovative and holistic solutions Sustainable futures propose a forward looking approach that considers the long term impact of our actions on the planet and its inhabitants In the pursuit of sustainable futures innovation plays a central role Technological advancements such as those in digitalization and green technology are essential for creating solutions that address environmental challenges while supporting economic and social development Sustainable futures require a holistic integration of policies technologies and societal practices This integration involves collaboration across sectors and disciplines to create synergies that amplify positive impacts and minimize negative consequences Green technology also known as environmental technology or clean technology refers to the development and application of products processes and services that use renewable materials and energy sources produce minimal waste and emissions and have a reduced impact on the environment compared to traditional technologies The primary goal of green technology is to address environmental challenges and promote sustainability So the focus is on exploring how integrating digitalization and green technology can propel us toward a more sustainable and resilient future For this we need to promote innovative sustainable technologies and ensure equal and universal access to information and financial markets Hence the 5th BICAME 2024 offers a conference with various topics that can be used to showcase the development of knowledge from various fields The presentations run in parallel with the conference We are grateful to the sponsors and exhibitors for their interest and support for the conference
