Teaching Civics in Unstable Times Andrew Tripodo,2021-11-10

American political culture runs through civics classrooms and the degraded dialogue and scorched earth partisanship that has defined modern American politics is an indicator that all is not well in our nation's schools. Teaching Civics in Unstable Times: Guidelines for Defining We in American Democracy offers a fresh expansive view of what civic education can look like in K-12 classrooms and presents three strategies to help teachers, curriculum writers, and administrators turn their schools into laboratories for democracy that train young people for the moral and intellectual challenges of democratic citizenship. This book defines democracy as a way of life that is characterized by frequent public engagement, stubborn open-mindedness, and rigorous debate. Our democratic government depends on our citizens leading a democratic life, and civic education's chief priority is to teach young people how to do so. Civic curriculum has spent decades obsessing over names and dates that fail to give students a sense of their vaunted place in our governing system. This book presents three strategies for teaching civics that invest young people in our shared grand experiment in self-government and prepares them to lead our nation towards a politics that is more compassionate, inclusive, and inspired.

Best Practices in Civic Education Amy K. Syvertsen, 2008-07

The power of civic education (CE) to elicit positive student outcomes has been documented. However, the field is only now beginning to understand the causal processes that bring about these positive changes in young people. The Civic Mission of Schools lays out 6 promising approaches to CE which emphasize the need for instruction that is relevant to young people, provides opportunities for practice, and moves beyond rote learning/praxis. These approaches to CE yield positive, lasting outcomes in students. The goal of this project is to examine the association between activities regularly used in CE courses (e.g., staging a mock election) and their impact on key student outcomes. This will provide evidence supporting best practices in CE.
