Stephens,2019-05-02 New Media in Times of Crisis provides an interdisciplinary look at research focused around how people organize during crises Contributors examine the latest practices for communicating during crises including evacuation practices workplace safety challenges crisis social media usage and strategies for making emergency alerts on U S mobile phones constructive and helpful The book is grounded in the practices of first responders crisis communicators people experiencing tragic events and communities who organize on and offline to make sense of their experiences The authors draw upon a wide range of theories and frameworks with the goal of establishing new directions for research and practice The text is suitable for advanced students and researchers in crisis disaster and emergency communication

Language Acquisition, Processing and Bilingualism Anna Cardinaletti,Chiara Branchini,Giuliana Giusti,Francesca Volpato,2020-07-16 Bringing together selected papers from the conference The Romance Turn VII held in Venice in October 2015 this volume focuses on a broad range of topics at the heart of the current debate on language acquisition including clitic pronouns left dislocations passives relative clauses and wh questions It explores these topics within a range of different

acquisition settings such as L1 and L2 acquisition bilingualism typical and atypical development In addition to syntax the volume covers other modules of grammar namely semantics pragmatics and phonology and adds a perspective on language processing to current discussions on the acquisition of Romance languages This book also includes contributions on atypical language acquisition in cases of deafness and on language intervention based on formal linguistics It will appeal not only to scholars and students interested in the nature and processes behind first second and bilingual language acquisition and impaired language acquisition but also to language educators and clinicians

Narrative Skills of Dual Language Learners

Ulla Licandro, 2016-07-11 The current work follows the premise that fictional oral narratives represent socio emotionally and academically relevant communicative practices Two studies are presented aiming to 1 analyze the narrative skills of preschool age Turkish German dual language learners DLLs and 2 explore a peer assisted approach to supporting DLLs narrative skills in early childhood education and care The findings relate to the influence of dual language learning on narrative production and provide emerging evidence for the effectiveness of a peer assisted narrative intervention approach

Handbook of Interview Research Jaber F. Gubrium, James A. Holstein, 2002 The Handbook of Interview Research is the most ambitious attempt yet at examining the place of the interview in contemporary society Interviewing is the predominant mode of research in the social sciences It is also the stock in trade of information seekers in organizations and institutions of all kinds as well as in the mass media Across the board interviews provide today's leading window on the world of experience The Handbook offers a comprehensive examination of the interview at the cutting edge of information technology Drawing upon leading experts from a wide range of professional disciplines this book addresses conceptual and technical challenges that confront both academic researchers and interviewers with more applied goals From interview theory to the nuts and bolts of the interview process the coverage is impressively broad and authoritative The Handbook of Interview Research is both encyclopedic and thematic As an encyclopedia it provides extensive discussions of the methodological issues now surrounding interview practice offering a multi faceted assessment of what has become the method of choice for obtaining personal information in today's society But the Handbook also is a story which spins a particular tale of interviewing one that moves from the commonly recognized individual interview to what is called the interview society The gist of the presentation is that we can no longer regard the interview as simply an instrument for gathering data but must now also view it as an integral part of society

Developmental and Clinical Pragmatics Klaus P. Schneider, Elly Ifantidou, 2020-08-24 This handbook provides a comprehensive and up to date survey of a wide range of developmental and clinical issues in pragmatics Principally the contributions to this volume deal with pragmatic competence in a native language in a second or foreign language and in a selection of language disorders The topics which are covered explore questions of production and comprehension on the utterance and discourse level Topics addressed concern the acquisition and learning teaching and testing assessment and treatment of various aspects of pragmatic ability knowledge and use These include for example the

acquisition and development of speech acts implicatures irony story telling and interactional competence Phenomena such as pragmatic awareness and pragmatic transfer are also addressed The disorders considered include clinical conditions pertaining to children and to adults Specifically these are among others autism spectrum disorders Down syndrome and Alzheimer s disease

Remote Online Language Assessment: Eliciting Discourse from Children and Adults Natalia Gagarina,Angel Chan,Wenchun Yang,2024-08-20

Being able to collect valid data is crucial for empirical science disciplines such as linguistics developmental psycholinguistics clinical psycholinguistics and speech and hearing sciences In recent years there has been an increasing use of digital devices for remote language assessments such as online elicitation of language samples apps for eliciting expressive and productive lexical abilities and online questionnaires With the ongoing COVID 19 pandemic still affecting many lives globally there have been numerous disruptions of face to face in person language assessments leading many researchers to conduct their language assessments online Despite the necessity of remote language assessments and the convenience they may bring to both assessors and assessees the potential merits limits and problems of remote testing have not yet been systematically explored and understood This timely Research Topic seeks contributions that mobilize new evidence and or insightful and nuanced discussions to address questions such as can we control online testing so that it is as good as face to face in person testing and if so how Do we have evaluative evidence of such practices and if so how robust is the evidence What adaptations and concerns can and cannot be accommodated at the present time What opportunities are offered by recent technological advances Are there certain conditions in which online testing works better or worse Last but not least how do differences between offline in person language assessments and online remote assessments affect the results of testing The current topic has two main foci the first deals with the assessment of conversational discourse in general and narrative discourse in particular in both children and young adults Communicative competence at the discourse level has been considered an essential and ecologically valid component in language assessments of children and adults for three key reasons 1 this competence is crucial for an individual s everyday functioning and academic and social life 2 it provides information about an individual s socio cognitive and linguistic abilities and 3 it is a versatile test of language skills at the levels of content form use and their integration The second focus is on comparing the results elicited via in person assessments and remote online assessments This Research Topic welcomes empirical articles discussing new evidence perspective and opinion papers on issues at the conceptual methodological interface and methods articles presenting approaches that can offer opportunities for remote testing of developmental discourse supported by recent technological advances Potential themes may include but are not limited to comparisons of remote versus in person testing modes using a within participants research design learner variables such as age gender language status monolingual multilingual and clinical status typically developing children and adults children and adults with clinical conditions such as developmental language disorder autism spectrum disorder which may affect the efficacy of remote testing linguistic

variables such as the use of referential and relational devices and mental state language which may be subject to more variations when being assessed remotely new methods that offer opportunities for the remote testing of developmental and adult discourse supported by recent technological advances articles addressing the same research question within developmental narrative discourse but using different i e either online or offline research methods

Encyclopedia of Special Education, Volume 1 Cecil R. Reynolds, Kimberly J.
