

College Scholarship/ Admission Essay

Think About Your Purpose - Not “selling yourself” or “getting in,” but simply being yourself--which usually means writing about yourself in human, rather than superhuman, terms. For example, if your transcript reveals that you are a stellar student of French, you might write about the time a Parisian pointedly responded in English to your request in French for directions to the Louvre.

Focus - Instead of generalizing your experience, for example saying something like, “I enjoy sports”, be as specific as you can be. Write about the thrill of catching a fly ball deep to centerfield just before it became a home run, or of a Little League career spent waiting for someone, anyone, to hit the ball to your position so that you could stop studying the grass and watching the butterflies.

Use Precise And Descriptive Language - Imagine that each word you write costs you a dollar, and that you don't have unlimited funds. Instead of writing “On a yearly basis, we would spend five hours driving to the lake, where I never gave up the hope of meeting the boy that would be my Prince Charming,” write “Every August, we trekked to Lake Apponaug, where I always hoped to meet my Prince Charming.”

Give Your Essay Momentum - Make the parts work together and move toward a thoughtful conclusion. In an essay about the summer you spent working in a marine research laboratory, a paragraph on the unreliable bus that took you there each day should be eliminated.

Use Correct Grammar, Spelling, and Punctuation - Don't distract your reader from what you're stating by stating it incorrectly. Misspellings, typos, and grammatical errors--such as subjects that don't agree with verbs--make the reader's task more difficult and suggest that you don't care much about the impression you make. Although nobody's perfect, strive for perfection on your application. Unfortunately, your reader may interpret your mistakes, no matter how innocent, to be signs of laziness, indifference, or even dishonesty.

Give Your Essay Momentum - Make the parts work together and move toward a thoughtful conclusion. In an essay about the summer you spent working in a marine research laboratory, a paragraph on the unreliable bus that took you there each day should be eliminated.

Contest(ed) Writing Mary Lamb, 2013-01-14 This collection is about writing contests a vibrant rhetorical practice traceable to rhetorical performances in ancient Greece In their discussion of contests cultural work the scholars who have contributed to this collection uncover important questions about our practices For example educational contests as epideictic rhetoric do indeed celebrate writing but does this celebration merely relieve educators of the responsibility of finding ways for all writers to succeed Contests designed to reward single winners and singly authored works admirably celebrate hard work but do they over emphasize exceptional individual achievement over shared goals and communal reward for success Taking a cultural rhetorical approach to contests each chapter demonstrates the cultural work the contests accomplish The essays in Part I examine contests and riddles in classical Greek and Roman periods educational contests in eighteenth century Scotland and the Lyceum movement in the Antebellum American South The next set of essays discusses how contests leverage competition and reward in educational settings medieval universities American turn of the century women's colleges twenty first century scholarship essay contests and writing contests for speakers of other languages at the University of Portsmouth The last set of essays examines popular contests including poetry contests in Youth Spoken Word popular American contests designed by marketers and twenty first century podcasting competitions This collection then takes up contests as a cultural marker of our values assumptions and relationships to writing contests and competition

The Impoverishment of the American College Student James V. Koch, 2019-07-09 Is the end in sight for college tuition hikes Tuition and fees at public colleges and universities consistently have risen twice or even three times as fast as comparable increases in the Consumer Price Index in recent years Since 2000 these costs have even grown 60 percent faster than health care costs The results have been rapidly rising student debt now 1.4 trillion nationally rising delinquencies in debt repayment and a dysfunctional stratification of public college student bodies on the basis of family incomes This is a broken unsustainable model for the majority of public colleges Why has this occurred The multiple causes include declining state support the avaricious behavior of individual institutions their reluctance to adopt productivity increasing innovations their cost increasing competition for higher U.S. News ratings and misdirected federal student financial aid policies The key actors are the 50,000 members of the governing boards of public colleges who too often

forget that their primary responsibility is to citizens taxpayers and the 15 million students Instead board members are co-opted by clever administrators into approving tuition and fee increases well beyond what is needed to make up for declining state funding Concerted informed public pressure on governors legislators and board members is necessary to move institutions in more positive directions Higher education funding and tuition and fee inflation are complicated matters that very few people understand well The Impoverishment of the American College Student clarifies the central issues and provides plentiful data to support its key points It is a must read for anyone who believes that maintaining access to and the affordability of public colleges are vitally important to our society's future
