women who crossed borders to join liberation movements how Cold War influences were acted upon interpreted and used and why certain moments venues and relations took on exaggerated importance The connections among liberation movements between them and their hosts and across an extraordinarily diverse set of external actors reveal surprising exchanges and lasting legacies that have too often been obscured by the assertion of monolithic national histories Tracing an extraordinarily diverse set of interactions and exchanges Transnational Histories of Southern Africa s Liberation Movements will be of great interest to scholars of Southern Africa Transnational History the Cold War and African Politics The chapters were originally published as a special issue of the Journal of Southern African Studies Mobility between Africa, Asia and Latin America Ute Rösenthaller,Alessandro Jedlowski,2017-08-15 Trade connections and cultural exchange between Africa and the rest of the global South have existed for centuries Since the end of the Cold War these connections have expanded and diversified dramatically with emerging economies such as China India and Brazil becoming increasingly important both as sources of trade and as a destination for African migrants But while these trends have attracted growing scholarly attention there has so far been little appreciation of the sheer breadth and variety of this exchange or of its deeper social impact This collection brings together a wide array of scholarly perspectives to explore the movement of people commodities and ideas between Africa and the wider global South with rich empirical case studies ranging from Senegalese migrants in Argentina to Lebanese traders in Nigeria The contributors argue that this exchange represents a form of globalization from below which defies many of the prevailing Western assumptions about migration and development and which can only be understood if we consider the full range and complexity of migrant experiences Multidisciplinary in scope Mobility between Africa Asia and Latin America is essential reading for students and scholars across the social sciences interested in the interconnected economic and social make up of the global South *Global Africa* Dorothy Hodgson,Judith Ann-Marie Byfield,2017-08 Global Africa will complicate conventional views of Africa as a place of violence despair and victimhood a place and space that other people states and organizations act on and steal from Instead they aim to document some of the significant global connections circulations and contributions that African people ideas and goods have made in the world not just in the United States but in South Asia Latin America Europe and elsewhere They will showcase new framings of Africa but will not romanticize the conditions and circumstances in which too many people on the continent currently live The essays in this volume will amplify those voices that offer complex and insightful explanations strategies for solutions and inspiration for the future Provided by publisher Identity Transformation and Politicization in Africa Toyin Falola,Céline A. Jacquemin,2022-09-06 Identity Transformation and Politicization in Africa Shifting Mobilization edited by Toyin Falola and Céline A Jacquemin questions whether identity is providing and sustaining power for elites or fueling oppression and conflicts being mobilized for exclusionary movements versus inclusive societal changes or educating in ways that foster progress and development Do aspects of African identities and the challenges they present also hold prospects for more inclusive and

peaceful democratic and representative futures The contributors cover a wide spectrum of expertise on different African countries Kenya Nigeria Ghana Rwanda Morocco and Libya They come from diverse disciplines History Political Science Public Administration Philosophy Economics and Finance Cultural Studies Music and International Relations and use various methods and approaches in their research Some contributors belong to the groups whose identity is being scrutinized and are participants in the efforts to politicize and mobilize while others remain outside observers who share some traits or interests with the African identities examined and provide different kinds of insights Several chapters explore how innovative pedagogical projects studying African history and identity facilitated by the internet and new social media transform and connect with the African continent Each author provides important insights on how mobilization around identity issues has been shifting with the internet and social media

Don't Act, Just Dance Catherine Gunther Kodat,2014-12-26 At some point in their career nearly all the dancers who worked with George Balanchine were told don t act dear just dance The dancers understood this as a warning against melodramatic over interpretation and an assurance that they had all the tools they needed to do justice to the steps but its implication that to dance is already to act in a manner both complete and sufficient resonates beyond stage and studio Drawing on fresh archival material Don t Act Just Dance places dance at the center of the story of the relationship between Cold War art and politics Catherine Gunther Kodat takes Balanchine s catch phrase as an invitation to explore the politics of Cold War culture in particular to examine the assumptions underlying the role of apolitical modernism in U S cultural diplomacy Through close theoretically informed readings of selected important works Marianne Moore s Combat Cultural dances by George Balanchine Merce Cunningham and Yuri Grigorovich Stanley Kubrick s Spartacus and John Adams s Nixon in China Kodat questions several commonly held beliefs about the purpose and meaning of modernist cultural productions during the Cold War Rather than read the dance through a received understanding of Cold War culture Don t Act Just Dance reads Cold War culture through the dance and in doing so establishes a new understanding of the politics of modernism in the arts of the period
