Dear Teacher,

We consistently selected our authors from across the United States, spent the summer collecting their experiences with math-related issues, and then—using our best judgment—selected the best of the best. Our authors are not just students with talent in the math classroom; they're also passionate, culturally rich, and experienced authors, educators, and more.

We hope you'll find this advantage of the book series—our authors' real-world experiences—helps to inspire your students' skills, ideas, and more. Just what your students need when they're trying to figure out the world around them. Making your classroom a place where math gets real.

Thank you,
The MATH Editors
