Scholasticscope April 2014:

The One-on-One Reading and Writing Conference Jennifer C. Berne, Sophie C. Degener, 2015 Personal interactions are the single most effective way for teachers to understand and evaluate their student as learners Responding specifically to new Common Core State Standards in reading and writing this book introduces pre and inservice teachers to a method of one on one interaction the authors refer to as the stretch conference This book provides detailed practical advice on the logistics of implementing these conferences during the busy school day including tips on how and when to schedule conferences and how to successfully manage the classroom during conference time The authors argue that rather than using valuable conference time for word level concerns and editing teachers should focus on more ambitious goals that will deepen and stretch students skills in comprehension and writing This resource suggests where conferences fit in with other important pieces of literacy instruction introduces a variety of high quality cues to use during conferences and shows how conferences can function as formative assessment for reading and writing skills This book was written by two veteran teacher educators who conduct frequent workshops and professional development with teachers helps teachers adjust their instruction for the demands of Common Core Standards and includes many detailed examples of effective conferences taken from real classrooms

Controversial Books in K-12 Classrooms and Libraries Randy Bobbitt, 2019-10-04 Controversial Books in K 12 Classrooms and Libraries Challenged Censored and Banned analyzes the history of controversy surrounding assigned reading in K 12 classrooms and books available in school libraries Randy Bobbitt outlines the history of book banning and controversy in the United States stemming from 1950s conservative Cold War values of patriotism and respect for authority and ramping up through the 1960s and onward as media coverage and parental intervention into the inner workings of schools increased The author claims that sensitive topics including sexuality suicide and drug use do not automatically imply the glorification of deviant behavior but can be used constructively to educate students about the reality of life Bobbitt argues that in an effort to shield children from the dangers of controversial issues parents and administrators are depriving them of the ability to discover and debate values that are inconsistent with their own and those around them teaching instead that avoidance of different viewpoints is the solution Scholars of education communication literature and policy will find this book especially useful

Heroes, Heroines, and Everything in Between Christopher J. Olson, CarrieLynn D. Reinhard, 2017-09-20

Current characters in children's entertainment media illustrate a growing trend of representations that challenge or subvert traditional notions of gender and sexuality From films to picture books to animated television series children's entertainment media around the world has consistently depicted stereotypically traditional gender roles and heterosexual relationships as the normal way that people act and engage with one another *Heroes Heroines and Everything in Between* Challenging Gender and Sexuality Stereotypes in Children's Entertainment Media examines how this media ecology now includes a presence for nonheteronormative genders and sexualities It considers representations of such identities in various media products e.g. comic books television shows animated films films children's literature meant for children e.g. toddlers to teenagers The contributors seek to identify and understand characterizations that go beyond these traditional understandings of gender and sexuality By doing so they explore these nontraditional representations and consider what they

say about the current state of children's entertainment media, popular culture, and global acceptance of these gender identities and sexualities. *Teaching with Inquiry* Catherine Snyder, Mary Eads, Sean O'Connell, Richard Lasselle, Sherri Duan, Daniel Mattoon, Patti Rand, 2023-05-22 Inquiry Learning is an innovative hands-on and collaborative approach to student learning. The Inquiry Learning Model shifts the heavy cognitive lifting from the teacher to the student. Documents and artifacts are used to provoke deep analysis and hone critical thinking skills as students work in teams to interpret and connect clues to solve a mystery. A detailed step-by-step methodology is provided as well as six multidisciplinary lessons. Lessons are suitable for collaborative teaching or stand alone in discipline-specific classes. For example, *Exploitation and Immortality: The Story of Henrietta Lacks* is a lesson that can be used in the science, social studies, English, or math classroom or a combination of any of these disciplines. In addition to the methodology and lessons, *Teaching with Inquiry* includes differentiation strategies to adapt lessons to all learners, suggestions for lesson use in multiple disciplines, and a variety of graphic organizers to help students organize process and summarize the information throughout the lesson. Customer Engagement Roderick J. Brodie, Linda D. Hollebeek, Jodie Conduit, 2015-12-14 How customers and consumer behavior have been changing due to technology and other forces is of prime interest. This book addresses the central questions regarding new emerging consumer behavior: how does social media affect this behavior? how and at what points do emotions affect consumer decisions? and what triggers this? How should engagement be conceptualized, defined, and measured? How do social media and other marketing activities create engagement? The book draws on the rich, extensive knowledge of the authors who are pioneers in the field. The book's editors have identified the weakness in the current knowledge and aim to address this gap by touching on significant conceptual and empirical contributions to this emerging literature stream, providing readers with a comprehensive contemporary perspective of customer engagement. The book also endeavors to develop a richer narrative around the notion of social media and customer engagement and the non-monetary notion of social media within new media-based social networks. *Autism in Young Adult Novels* Marilyn Irwin, Annette Y. Goldsmith, Rachel Applegate, 2015-06-17 An estimated 1 in 110 children in the United States has autism spectrum disorder (ASD). Although the public awareness of autism has grown significantly, teens are not as educated about this subject as they should be. When accurately and positively presented literature has been shown to help the classmates of those with ASD better understand the disorder, increased familiarity with the subject will in turn help foster acceptance. In *Autism in Young Adult Novels: An Annotated Bibliography*, Marilyn Irwin, Annette Y. Goldsmith, and Rachel Applegate identify and assess teen fiction with autism content. In the first section, the authors analyze how characters with ASD are presented: Where do they live and go to school? Do they have friends? Do they have good relationships with their family? How are they treated by others? The authors also consider whether autism is accurately presented. This discussion is followed by a comprehensive bibliography of books that feature a character identified as being on the autism spectrum. The novels reviewed in this volume date as far back as the late

1960s and include works published in the last few years As more and more authors of young adult fiction become sensitive to ASD they are featuring such characters in their novels creating more realistic works for their readers This study will help librarians and others collect choose evaluate and use these works to educate young adults Nurse as Educator: Principles of Teaching and Learning for Nursing Practice Susan B. Bastable, 2017-12-06 Nurse as Educator Principles of Teaching and Learning for Nursing Practice Fifth Edition prepares nurse educators clinical nurse specialists and nurse practitioners for their ever increasing role in patient teaching health education health promotion and nursing education Time Regained Delia Ungureanu, 2021-10-07 Awarded the Tudor Vianu Prize for Literary and Cultural Theory by the National Museum of Romanian Literature Over the past 30 years the fields of world literature and world cinema have developed on parallel but largely separate tracks with little recognition of their underlying similarities and the ways that each can learn from the other Time Regained does not move from literature to cinema but exists simultaneously in both fields The 7 filmmakers selected here Andrei Tarkovsky Akira Kurosawa Martin Scorsese Ra l Ru z Wong Kar Wai Stephen Daldry and Paolo Sorrentino are themselves also writers or people with literary training and they produce a new type of world cinema thanks to their understanding of the world simultaneously through literature and film In the process their films produce new readings of literary texts that world literature studies wouldn t have been able to achieve with its own instruments Time Regained examines how filmmakers build on literature to reconfigure the world as a landscape of dreams and how they use film to reinvent the narrative techniques of the authors on whom they draw The selected filmmakers draw inspiration from French surrealists modernists Marcel Proust Virginia Woolf and Marguerite Yourcenar and predecessors such as Dante and Cao Xueqin In the process these filmmakers cross the borders between film and literature nation and world dream and reality Transcultural Interaction and Linguistic Diversity in Higher Education A. Fabricius, Bent Preisler, 2015-06-22 This book presents research that seeks to understand students experiences of transnational mobility and transcultural interaction in the context of educational settings confronted with linguistic diversity *On Commerce and Usury (1524)* Martin Luther, 2015-09-15 This volume presents Martin Luther s contribution to the modern economic sciences providing a detailed introduction and revised translation of his major pamphlet on economic matters On Commerce and Usury Von Kauffshandlung und Wucher 1524 In his teachings on indulgences Luther picked up on the question of hoarding money and was among the earliest voices in early modern Europe calling for an ethical economics Luther s work prefigured many later contributions to modern economic theory from the mercantilists and cameralists to the German Historical School
