Every day students struggle with a range of issues including traumas that complicate their learning, engagement, and overall well-being. School psychologists, counselors, social workers, and nurses are employed in many school districts, but their schedules often make it difficult to collaborate effectively in developing and implementing comprehensive intervention plans. This book promotes teamwork throughout schools by exploring how interdependent practitioners can come together at the appropriate levels and times to help coordinate school and community resources. This filtering process will guide K-12 leaders and service professionals toward systems and decision making that enable long-term student supports, accurate identification of systemic learning barriers, improved school culture and climate, attention to diverse populations, and more. With these proactive teamwork strategies, school staff will be better prepared to share workload and accountability and to identify and build upon the existing strengths and supports of every student. **School Attendance and Problematic School Absenteeism in Youth** Christopher Kearney, Carolina González, David Heyne, 2021-01-04 **Resources in Education**, 1998-04 **Publisher and Bookseller**, 1899 Vols for 1871-76, 1913-14 include an extra number.
