coverage to facilitate action in each of these areas and will consequently be invaluable to psychologists in any applied setting. The two volumes of the Encyclopedia of Psychological Assessment contain a series of 235 entries organized alphabetically and covering a variety of fields. Each entry includes a general conceptual and methodological overview, a section on relevant assessment devices followed by links to related concepts in the Encyclopedia and a list of references. The Encyclopedia of Psychological Assessment provides a comprehensive network for psychological assessment as a conceptual and methodological discipline and as a professional activity. An overview of the complexity of assessment which involves not only testing but also a process of decision making for answering relevant questions that arise in the different applied fields. A presentation of relevant issues from basic theory, theoretical perspectives, ethics and methodology, validity, reliability, item response theory to technology and modes of assessment, tests, instruments and equipment for measuring behavioral operations. An attempt to unify this diverse field by offering full coverage of all areas from the most traditional such as clinical, educational and work and organizational psychology to the most recent applications linked to health, gerontology, neuropsychology, psychophysiology and environmental assessment. The Encyclopedia of Psychological Assessment offers a truly international perspective both in terms of the selected authors and chosen entries. It aims to provide an integrated view of assessment bringing together knowledge dispersed throughout several methodological and applied fields but united in terms of its relevance for assessment. It is an essential purchase for any library with an existing collection or concern with the field of psychological science in general.

The Social Communication Intervention Programme Manual Catherine Adams, Jacqueline Gaile, 2024-03-29. The Social Communication Intervention Programme (SCIP) has been developed to support school aged children 6-11 years with social communication pragmatic and language needs. The Social Communication Intervention Programme Manual provides a rationale and method for providing specialist level language therapy for these children who have significant social communication differences. Evidence for the effectiveness of SCIP is included in The Manual. This book introduces the SCIP model and explores the three main components: social understanding, social inference, pragmatics and language processing. Guidance is included on how to link assessment with therapy, how to plan and individualise interventions and how to proceed with the programme. It contains a wealth of real life case examples to illustrate key points with step by step instructions for carrying out the interventions. Used alongside The Social Communication Intervention Programme Resource, this book offers a truly practical, tried and tested model to provide targeted individualised intervention for children with social communication challenges. It is an essential tool for speech and language therapists, specialist teachers and psychologists who are working with children with social communication pragmatic and language needs. For the most effective use, The SCIP Manual should be purchased alongside The SCIP Resource.
