Illustrations,2022-02-20 Kids love buses And who doesn t A school bus is an excellent way for a kid to get to school However a bus can also be a source of danger In the past kids often rode on the roof of a horse drawn carriage Despite the safety risks of riding strapless on a fast moving vehicle most kids chose to walk These days we see buses that are over 100 years old The first school bus was a horse drawn carriage The early buses were horse drawn carriages and they were used for just 15 years But the high cost of the ticket prevented most parents from using the system so the first school bus was introduced in 1662 in Paris Then steam powered buses became common followed by the electric trolley bus and finally the internal combustion engine bus Since then buses have evolved to become a reliable affordable way to travel The modern day school bus is orange or yellow Today buses are safe and convenient ways to get around In the past the yellow and green vehicles used to transport children But things have changed a lot since then With the introduction of modern technology buses are much safer and easier to ride than cars With red lights flashing constantly school buses are more secure than cars But despite their safety features they still do not stop in front of drivers School Bus Coloring Book Black Rose Press House,2020-09-06 Bus
