

The background of the cover is a dark, deep blue space. In the center, there is a black hole, depicted as a dark, circular void. Surrounding the black hole is a bright, glowing blue ring of energy. From this ring, numerous bright blue light streaks and rays emanate outwards, creating a sense of intense energy and movement. The overall effect is one of a powerful cosmic event.

Friedrich Nietzsche

Schwarze Energie German Edition:

The Scarlet Daybreak: Bilingual English & German Edition Friedrich Nietzsche, 2024-05-09 A new translation from the original manuscript of Nietzsche's 1881 *Morgenröte*. This edition is bilingual; the original text is included in the back as reference material behind the English translation. This is volume 4 in *The Complete Works of Friedrich Nietzsche* from Livraria Press. This chronological systematic set of Nietzsche's works is the first ever bilingual *Hauptwerke* or complete major works of Nietzsche published in English; the original German. This work is often translated as *The Dawn* or *The Dawn of Day*. This is a poor translation of the original title *morgenröte* which refers to the reddening of the sky in the pre-dawn hours. *Morgenröte* or *Morgenröte* in the modern spelling literally means *Morning Red*, a unique German word referring to the reddening of the sky in the twilight hours before daybreak. Rendering such as *The Dawn of Day* or just *Daybreak* but this misses the connotations of the word. *Dämmerung* is dawn but *Morgenröte* is a specific phenomenon of the predawn eastern sky. In Roman mythology there is a Goddess associated with the *Morgenröte*, *Aurora*. In Greek mythology Homer called this the rose-fingered *Eos*. This has continuity into Christianity as the *Red Mass*, the beginning of two different antiphons in the liturgy of the Roman Catholic Church at Advent to celebrate Mary who is symbolized by the dawn, traditionally celebrated in the pre-dawn reddening of the sky. While there isn't a direct equivalent word for the pre-dawn reddening, the closest literal translation would be *The Reddening Dawn*, but to capture the dramatic tone I rendered this *The Scarlet Daybreak*. Nietzsche is speaking here of a hope for his own dawn out of the nihilism he was born into: *seine eigene Morgenröte*. In his initial declaration of war against Metaphysics in *Human, All too Human*, Nietzsche writes the will is ashamed of the intellect. This initial foray into Schopenhauer's philosophy of the force of the will finally manifest itself as the *Willen zur Macht* here in *The Scarlet Daybreak*. Through this lens he takes on the whole of Christianity and the Judeo-Christian moral continuum. He considers religious experience, particularly Christianity, as a psychopathological phenomenon, an idea he articulates in every single one of his works. His perspective shifts from a Darwinian/Historical in *Human, All too Human* to a more phenomenological/psychological approach here in *The Scarlet Daybreak*. Thomas Mann und Ivan Olbracht [German-language Edition] Olga Zitová, 2014-03-01 Zitová's literary analysis starts at the interface of Czech and German literature in the first half of the twentieth century. Thomas Mann's novel *Joseph and His Brothers* is set in comparative relation to Ivan Olbracht's prose texts *Nikola* and *Die Hölle* and *Golet v dolu*. Olbracht translated three volumes of Mann's *Joseph's tetralogy* parallel to the composition of his own prose works. Zitová examines the influence of Olbracht's translation work on his own work. Zitová's literaturwissenschaftliche Analyse setzt an einer Schnittstelle der tschechischen und deutschen Literatur in der ersten Hälfte des zwanzigsten Jahrhunderts an. Thomas Manns Roman *Joseph und seine Brüder* wird vergleichend in Beziehung gesetzt zu Ivan Olbrachts in den dreißiger Jahren entstandenen Prosatexten *Nikola* und *Die Hölle*. Olbracht übersetzte parallel zur Abfassung seiner Prosawerke insgesamt drei Bände aus Manns umfangreicher
