The Tradition of Hermes Trismegistus Christian H. Bull, 2018-09-24 In The Tradition of Hermes Trismegistus Christian H Bull argues that the treatises attributed to Hermes Trismegistus reflect the spiritual exercises and ritual practices of loosely organized brotherhoods in Egypt These small groups were directed by Egyptian priests educated in the traditional lore of the temples but also conversant with Greek philosophy Such priests who were increasingly dispossessed with the gradual demise of the Egyptian temples could find eager adherents among a Greek speaking audience seeking for the wisdom of the Egyptian Hermes who was widely considered to be an important source for the philosophies of Pythagoras and Plato The volume contains a comprehensive analysis of the myths of Hermes Trismegistus a reevaluation of the Way of Hermes and a contextualization of this ritual tradition

Access to Western Esotericism Antoine Faivre, 1994-12-05 This is the first systematic treatment of esotericism to appear in English Here is also a historical survey beginning with the Alexandrian Period of the various esoteric currents such as Christian Kabbalah Theosophy Alchemy Rosicrucianism and Hermeticism Common characteristics of these currents are the notion of universal interdependency and the experience of spiritual transformation The author establishes a rigorous methodology provides clarifying definitions of such key terms as gnosis theosophy occultism and Hermeticism and offers analysis of contemporary esotericism based on three distinct pathways The second half of the book presents a series of studies on several important figures works and movements in Western esotericism studies devoted to some of the most characteristic and illuminating aspects that this form of thought has taken such as theosophical speculations on androgyny rosicrucian literature and Masonic symbolism The book is completed by a rich and selective Bibliography conceived as a means of orientation and a tool for research

The Eternal Hermes Antoine Faivre, 2000-01-01 From the Western esotericism pioneer a work of lucid scholarship that reveals the full range of Hermes innumerable manifestations in European history Parabola Hermes the fascinating mercurial messenger of the gods eloquent revealer of hidden wisdom and guardian of occult knowledge has played a central role in the development of esotericism in

the West Drawing upon many rare books and manuscripts this highly illustrated work explores the question of where Hermes Trismegistus came from how he came to be a patron of the esoteric traditions and how the figure of Hermes has remained lively and inspiring to our own day Great erudition blended with a highly refined metaphysical sensibility brings the great Hermes to life and allows this powerful psychospiritual archetype to speak once again and perhaps even play a few much needed tricks on us Jacob Needleman author of *The Heart of Philosophy* Faivre's remarkable achievement in this single volume is to combine the historical richness of the Hermetic tradition with its relevance to understanding the circumambulations of the psyche today as it pursues its spiritual quest June Singer author of *Boundaries of the Soul* This book is an impressive and compelling contribution to the puzzling question of both the source and perdurance of Hermes in his variety of shape shifting guises From Alexandria to Amsterdam Athens to America this thrice great Hermes keeps showing up perhaps even more than in antiquity David L Miller author of *The New Polytheism*

In Search of New Age Spiritualities Adam Possamai, 2019-01-22 The search for an adequate understanding of the New Age phenomenon is fraught with difficulties when examined within the perspectives of sociology of religion which have shed light on religion in modernity New Agers cannot be located easily in the secularisation narrative they move through fluid networks rather than settled collectivities they assemble personal syncretisms of belief myth and practice rather than subscribe to codified doctrines and prescribed rituals New Age is quickly found to be a label that is unacceptable to many of those designated as New Agers This book advances our understanding of the so called New Age phenomenon by analysing accounts of insiders religious experience and orientations This approach is brought to bear not only on the study of written documents relating to New Age and its putative antecedents but on the analysis of in depth interviews with thirty five spiritual actors

Religion & the Order of Nature Seyyed Hossein Nasr, 1996 The current ecological crisis is a matter of urgent global concern with solutions being sought on many fronts In this book Seyyed Hossein Nasr argues that the devastation of our world has been exacerbated if not actually caused by the reductionist view of nature that has been advanced by modern secular science What is needed he believes is the recovery of the truth to which the great enduring religions all attest namely that nature is sacred Nasr traces the historical process through which Western civilization moved away from the idea of nature as sacred and embraced a world view which sees humans as alienated from nature and nature itself as a machine to be dominated and manipulated by humans His goal is to negate the totalitarian claims of modern science and to re open the way to the religious view of the order of nature developed over centuries in the cosmologies and sacred sciences of the great traditions Each tradition Nasr shows has a wealth of knowledge and experience concerning the order of nature The resuscitation of this knowledge he argues would allow religions all over the globe to enrich each other and cooperate to heal the wounds inflicted upon the Earth

Thaddaeus Hagecius, or Hájek, 1526-1600 Martin Zemla, 2025-10-01 Tadeas Hajek of Hajek 1526 1600 Latinized as Thaddaeus Hagecius ab Hagek Hayek was a key figure in early scientific debates not only in his native Bohemia

A versatile scholar and polymath he was prolific in medicine botany mathematics and astronomy Modern interpreters tended to point out his astronomical interpretations to emphasize his greatest achievements and his modernity However Hajek also drew extensively on traditional arts such as alchemy astrology and metoposcopy In this volume the contributors study various aspects of Hayek s thought to present a less tendentious intellectual portrait of him in the context of his times Even from this more adequate perspective he remains an important figure in the dialectical process of transmitting ideas whose influence extended far beyond the Czech lands

Sociology of Religion for Generations X and Y Adam Possamai,2016-04-08

Generations X and Y are plugged into the contemporary world of consumption popular culture and the internet These generations treat knowledge and belief as a more flexible concept often focusing on the practical rather than the theoretical and often drawing on conflicting sources in both popular and cyber culture Their approach to religious belief and practice requires a new way of studying the sociology of religion Sociology of Religion for Generations X and Y examines key world religions Buddhism Christianity and Islam as well as newer religious groups such as Scientology New Age Witchcraft and online communities such as Jediism and Matrixism The book covers a range of key concepts secularisation and modernisation re enchantment the McDonaldisation of society and the easternisation of the west Each chapter opens with a case study from popular culture or the internet which takes the reader to the heart of the topic being discussed Employing both classical sociological theory and contemporary critical theory Sociology of Religion for Generations X and Y explains where contemporary religion and spirituality are coming from where they are now and where they are going

Chora 3 Alberto

Pérez Gómez,Stephen Parcell,1999 This collection on the philosophy of architecture is intended for historians and theorists of architecture and anyone interested in issues of space body and architectural meaning

Paradise Lost Cristoffel A. O. van

Nieuwenhuijze,1997 This book probes from various angles into the forever problematic relationship between the Middle East and Western Europe between a revitalizing Islamic and a post Christian civilization In singling out the intercultural nature of events and clashes it advances an innovative interactive style of scholarship

Hélène Cixous Metka Zupančič,2007 This is

a collection of personal essays dealing with the writings of French novelist Helene Cixous from 1990 to the present day The author Metka Zupancic examines Cixous s literary output through the mythical symbolical and alchemical figures of a New Eurydice and the feminine versions of Hermes and Orpheus In addition Cixous s commitment to literature and aesthetics are closely studied and elaborated This is a highly technical study suitable only for students and scholars of French feminist literature

Religion and Change in Australia Adam Possamai, David Tittensor, 2022-03-30 This timely book offers a panoramic overview of the enduring significance of religion in modern Australian society Applying sociological perspectives and contemporary theories of religion in society it challenges conventional assumptions around the extent of secularisation in Australia and instead argues that religious institutions groups and individuals have proved remarkably adaptable to social change and continue to play a major role in Australian life In doing so it explores how religion intersects with a wide range of other contemporary issues including politics race migration gender and new media Religion and Change in Australia explores Australia's unique history regarding religion Christianity was originally imported as a tool of social control to keep convicts settlers and Australian Aboriginal peoples in check This had a profound impact on the social memory of the nation and lingering resentment towards the excessive presence of religion continues to be felt today Freedom of religion was enshrined in Section 116 of the Australian Constitution in 1901 Nevertheless the White Australia Policy effectively prevented adherents of non-Christian faiths from migrating to Australia and the nation remained overwhelmingly Christian However after WWII Australia in common with other western societies appears to have become increasingly secularised as religious observance declined dramatically However Religion and Change in Australia employs a range of social theories to challenge this secularist view and argues that Australia is a post secular society The 2016 census revealed that over half of the population still identify as Christian In politics the socially conservative religious right has come to exert considerable influence on the ruling Liberal National Coalition particularly under John Howard and Scott Morrison New technologies such as the Internet and social media have provided new avenues for religious expression and proselytisation whilst so-called megachurches have been built to cater to their increasing congregations The adoption of multiculturalism and increased immigration from Asia has led to a religiously pluralist society though this has often been controversial In particular the position of Islam in Australia has been the subject of fierce debate and Islamophobic attitudes remain common Atheism non-belief and alternative spiritualities have also become increasingly widespread especially amongst the young Religion and Change in Australia analyses these developments to offer new perspectives on religion and its continued relevance within Australian society This book is therefore a vital resource for students academics and general readers seeking to understand contemporary debates surrounding religion and secularisation in Australia

La libération de l'homme Tome 3 Jean-Yves Jézéquel, 2016-01-20 Que sont vraiment la conscience et la liberté l'expérience naturelle de l'intriorité humaine libre Nous allons découvrir pourquoi la liberté est par excellence une manifestation de la conscience Nous allons explorer le parcours et la formation de la conscience puis son envol vers la dimension d'unveil supérieur en surconscience permettant l'être humain de s'enfuir d'une captivité mentale captivité d'aliénation sociale des conditions permettant les illusions et de celles qui changent

la vie en survie pour lui offrir enfin l'occasion d'une existence réellement satisfaisante et donnant sens son expérience humaine dans tous ses aspects Car chacun d'entre nous est un mystique qui ignore une manifestation potentielle de la conscience capable de surconscience Cet ouvrage s'attache explorer le chemin de cette plongée dans l'intriorité en conformité avec les données du champ culturel qui est le théâtre de l'est du carcan religieux qui l'a souvent interdit perscuté de tournoyer voir occulté par la diabolisation et le sectarisme de son dogme Spiritualité expériences de différents tats de conscience redéfinition du féminin et de la place de la femme le sens de la sexualité l'incompatibilité de la notion patriarcale de pouvoir avec la renaissance du féminin travers ce troisième tome de La Libération de l'homme l'auteur met un point final notre révolution intérieure fascinante troublante une réflexion qui nous invite enfin nous redécouvrir *Imaginaire et Réalité* Jean E.

Charon, 2015-10-01 La Réalité c'est ce monde de Matière et d'espace qui nous entoure l'Imaginaire ce sont nos processus mentaux notre Pensée Comment rendre compte de l'existence de ces deux mondes si différents dans leurs aspects Et indépendamment de la Pensée et de la Matière comment faut-il définir l'Esprit notre Esprit capable de regarder comme des objets distincts de lui-même la fois notre propre Matière et notre propre Pensée et ne se confondant donc avec ni l'une ni l'autre Finalement qui sommes nous Matière Pensée Esprit Jean E. Charon pose une nouvelle fois ces questions la Science contemporaine Après le Colloque CIPRES 1 qui s'était tenu Fès au Maroc en 1983 voici aujourd'hui CIPRES 2 qui a eu lieu aux tats Unis Washington D C en septembre 1984 Autour du thème général Imaginaire et Réalité Jean E. Charon a réuni des chercheurs venus des universités du monde entier tous cependant se caractérisant par leur désir d'apporter leur contribution ce problème de l'Esprit dans le cadre de la discipline où ils sont spécialistes Les grandes disciplines présentes Washington ont été la Biologie la Physique la Sociologie la Psychologie et la Philosophie Les principaux thèmes examinés ont été les suivants Comment l'Esprit peut-il être capable de concevoir un cerveau lui-même capable de produire l'Esprit La distinction entre l'Imaginaire créateur Imaginal et l'Imaginaire qui fabule en associant entre eux de façon nouvelle des éléments connus de la Réalité Imagination L'interaction Esprit Matière face la Philosophie la Biologie et la Physique contemporaines Comment l'Imaginaire humain nous distingue-t-il dans la lignée animale L'Imaginaire en Orient et en Occident L'Univers comme théâtre de l'Esprit Les notions de Bien et de Mal en Psychologie contemporaine La Matière est aujourd'hui une Psychomatière L'Occulte Sabine Doering-Manteuffel, 2011-12-15 La notion d'occulte désigne un ensemble de croyances qu'il faut considérer comme autant de savoirs liés et associés aux savoirs communs non occultes par un réseau d'affinités souvent difficiles à délimiter

Pratique de l'imaginaire Martine Xiberras, 2002 **El hombre como argumento** Miguel Morey, 1987

Représentations sociales et moments utopiques Gérard Dehler, 2016 Cet ouvrage est tout à la fois un exercice de réflexion un compagnon de voyage une méditation et un témoignage sur une époque qui nous a fait réfléchir au changement et plus encore le refus d'une résignation au monde tel qu'il nous est fait une aventure intellectuelle l'exploration du monde du proche et du lointain un départ la rencontre de soi-même car je suis un autre comme nous le disons et redisons encore avec Arthur Rimbaud L'utopie

est un lieu qui ne s'avoue pas Quand la mémoire s'en retire c'est l'histoire qui s'installe Villes neuves et nouvelles sont les symptômes des impossibles poliorcétiques La typicité et la marginalité de certaines expériences poussent à chercher la singularité dans un retour sur une position celle d'un objet complexe l'urbain son utopie mise en perspective partir de son cadre un lien social l'origine d'un projet de renouveau volontaire son moment pose la question des représentations d'un ensemble de protagonistes et cerne une demande sociale interroge sur les affaires des uns et des autres militant intellectuel chercheur animateur de l'enfance sur un terrain initial initiatique où concept et mythes entrecroisent dans un mouvement de soi vers l'autre le moment utopique donne la fois le temps et l'lan d'un premier mouvement et une première parenthèse Surgit l'habitant lointain d'un univers exposé incertain et aléatoire présence de l'enquêteur Il s'agit de trouver quelque raison d'être habitant r habilité une ambulation de proximité Dans les rives d'interrogation il s'agit de prendre le monde au mot Le sociologue prudent saura tenir sa langue et chapper au choc des valeurs La neutralité axiologique n'empêche pas nécessairement les incertitudes partielles Il faut raison garder et quitter les certitudes de la reproductibilité Penser le social ni plein ni vide mais incertain et flou et considérer les débords Reposer le problème de la singularité dans la compréhension du social de l'invention des moyens de l'change d'une labilité de l'être de l'insaisissable haleine la respiration profonde en de des laxismes et des crispations pistologiques retrouver les cours des variations rencontrer dans l'interposition les voix du social un accès au monde et une figure de l'humain qui en subvertit les formations
