

What's a Habitat?

Great job! Now that your ears are listening, look for the four parts of a habitat. A good butterfly habitat has everything it needs to survive. There are four main parts to a habitat. Put a check next to each part you see: food, water, cover, and space.

☐

FOOD: Just like you, butterflies need a healthy diet. Different butterflies eat different foods, for example flower nectar, tree sap, or rotten fruit.

☐

WATER: From a water drop on a leaf, puddle, or river, butterflies need clean water for drinking.

☐

COVER: Butterflies need safe places to sleep, shelter from bad weather and places to hide from predators. Butterflies find cover in trees, bushes, and even structures made by people.

☐

SPACE: Butterflies need room to grow and live. They need to be able to find enough food, water, and cover in the place they call "home."
