A Brief Guide to Star Trek Brian J.

Robb, 2012-04-19 For over 40 years Star Trek has made a phenomenal cultural impact Now more popular than ever J J Abrams reinvented Star Trek movie was one of the box office hits of 2009 grossing 385 million worldwide the franchise continues to have cultural social and political resonance around the world Star Trek has changed not just the way we look at space but also our own world It gave the culture a lexicon of catchphrases from Beam me up Scotty to Dr McCoy's many complaints beginning I'm a doctor not a Much of the future technology depicted on Star Trek has come to feature in everyday life from the communicator like mobile phone to computer touch screens now taken for granted Many of the world's most prominent scientists were inspired to pursue their careers as were many writers and artists due to an early exposure to Star Trek In A Brief Guide to Star Trek expert Brian J Robb charts the rise and rise of the show and explores its impact our culture

The Oxford Handbook of Radio and Podcasting Michele Hilmes, Andrew Bottomley, 2024 Radio today remains the most accessible and widely available communication medium worldwide despite technological shifts and a host of upstart challengers Since its origins in the 1920s radio has innovated a new world of sound culture now expanded into the digital realm of podcasting that is enabling the medium to reach larger audiences than ever before Yet radio remains one of the least studied of the major areas of communication arts due largely to its broadcast era ephemerality With the advent of digital technology radio's past has been unlocked and soundwork is exploding as a creative field creating a lively and diverse sonic present while simultaneously making critical historical analysis possible at last This volume offers newly commissioned chapters giving readers a wide ranging view of current critical work in the fields of radio and podcasting employing specific case studies to analyze sound media's engagement with the arts with the factual world of news talk and documentary programming as a primary means of forging community along with national transnational and alternative identities and as a subject of academic and critical research Its historical scope extends from radio's earliest days through its mid twentieth century decades as the powerful voice of nations and empires onto its transformation into a secondary medium during the television era and into the expanding digital present Over the course of 37 chapters it provides evidence of the sound media's flexibility and adaptation across diverse cultures by examining radio's past and present uses in regions including the United

States Canada Britain Australia Poland China Korea Kenya Angola and Mozambique South Asia and the Caribbean Contributors include historians and media scholars as well as sound artists and radio podcast producers Notably companion links to digital quotations from works analyzed are included in many chapters along with chapter audiographies offering links to further listening Throughout The Oxford Handbook of Radio and Podcasting connects radio's broadcast past to its digital present and traces themes of creativity identity community nation and transnationality across more than a century of audio media [Library of Congress Subject Headings](#) Library of Congress. Policy and Standards Division, 2010 *Radio Drama* Tim Crook, 2002-01-04 Radio Drama brings together the practical skills needed for radio dramas such as directing writing and sound design with media history and communication theory Challenging the belief that sound drama is a blind medium Radio Drama shows how experimentation in radio narrative has blurred the dividing line between fiction and reality in modern media Using extracts from scripts and analysing radio broadcasts from America Britain Canada and Australia the book explores the practicalities of producing drama for radio Tim Crook illustrates how far radio drama has developed since the first audiophonic production and evaluates the future of radio drama in the age of live phone ins and immediate access to programmes on the Internet **Routledge Revivals: Radio Broadcasting from 1920 to 1990 (1991)** Diane Foxhill Carothers, 2016-11-10 First published in 1991 this book presents a comprehensive annotated bibliography of radio broadcasting Its eleven chapter categories cover almost the entire range of radio broadcasting with the exception of radio engineering due to its technical complexity although some of the historical volumes do encompass aspects thus providing background material Entries are primarily restricted to published books although a number of trade journals and periodicals are also included Each entry includes full bibliographic information including the ISBN or ISSN where available and an annotation written by the author with the original text in hand **Analog Science Fiction & Fact**, 2006 **Becoming Ray Bradbury** Jonathan R. Eller, 2011-08-10 Becoming Ray Bradbury chronicles the making of an iconic American writer by exploring Ray Bradbury's childhood and early years of his long life in fiction film television radio and theater Jonathan R Eller measures the impact of the authors artists illustrators and filmmakers who stimulated Bradbury's imagination throughout his first three decades Unprecedented access to Bradbury's personal papers and other private collections provides insight into his emerging talent through his unpublished correspondence his rare but often insightful notes on writing and his interactions with those who mentored him during those early years Beginning with his childhood in Waukegan Illinois and Los Angeles this biography follows Bradbury's development from avid reader to maturing author making a living writing for the genre pulps and mainstream magazines Eller illuminates the sources of Bradbury's growing interest in the human mind the human condition and the ambiguities of life and death themes that became increasingly apparent in his early fiction Bradbury's correspondence documents his frustrating encounters with the major trade publishing houses and his earliest unpublished reflections on the nature of authorship Eller traces the sources of Bradbury's very conscious decisions following

the sudden success of *The Martian Chronicles* and *The Illustrated Man* to voice controversial political statements in his fiction. Eller also elucidates the complex creative motivations that yielded *Fahrenheit 451*. *Becoming Ray Bradbury* reveals Bradbury's emotional world as it matured through his explorations of cinema and art, his interactions with agents and editors, his reading discoveries, and the invaluable reading suggestions of older writers. These largely unexplored elements of his life pave the way to a deeper understanding of his more public achievements, providing a biography of the mind, the story of Bradbury's self-education, and the emerging sense of authorship at the heart of his boundless creativity.

The Star Wars Radio Dramas Maria Jose Tenuto, John Tenuto, 2024-07-29 By 1977 National Public Radio (NPR) was in trouble, plagued by too little funding and small audiences. The phenomenal success of its adaptation of *Star Wars* as a radio drama in 1981 gave NPR the needed ratings, publicity, and boost in donations that kept it afloat at exactly the time it was threatened. The most important thing *Star Wars* brought was a new audience to NPR. As it did in theaters, where George Lucas's films redefined movie making, so too did NPR's *Star Wars* forever change the artistic world of radio drama. That a radio network dependent exclusively on audio would find a lifeline in one of the most visually dynamic movies ever released is the stuff of irony. Utilizing new interviews with creatives such as Anthony Daniels, C-3PO, Ann Sachs, Princess Leia, Perry King, Han Solo, and director John Madden, and archival research, this book details how an unlikely alliance of academics, radio executives, Lucasfilm employees, actors, and behind-the-scenes artists banded together despite the obstacles to create a unique and consequential work. It is also the story of how writer Brian Daley was the fulcrum who made it all possible.

Unlocking the Mysteries of Cataloging Elizabeth Haynes, Joanna F. Fountain, Michele Zwierski, 2015-03-03 Ideal for students and both beginning and practicing catalogers in public school and academic libraries, this updated workbook offers targeted hands-on exercises that enhance understanding of description, classification, subject analysis, subject heading application, and MARC 21 subject analysis. Like the first edition, this updated workbook has a straightforward goal: to help expand and improve the effectiveness of library catalogs. It is designed to supplement existing textbooks by providing exercises in AACR2r and RDA description, classification, subject analysis, and MARC protocols. Particular attention is given to problems that may arise when cataloging books as well as multimedia combinations: 3D items, toys, natural objects, maps, printed and performed music, bilingual materials, and electronic files. Through the exercises, you will better understand the overall process of cataloging an item and making a record, the application of RDA in producing records, the steps for cataloging new media, and the differences in records using RDA or AACR2r. To enhance the exercises, the workbook incorporates photographs of real materials and offers questions for consideration. There is also a companion website with enlargeable color graphics. The site provides complete answer records and additional indexes for instructors to use in selecting examples for specific elements in the record. For students, new or advanced selected MARC answer records are included, as are special lists, forms, and indexes leading to the tools any cataloger will need. Student Resources Exercises The images from the exercises in the book are

included in this section in a larger format for closer examination Exercises MARC Template For use in drafting cataloging records for all types of elements MARC Template Instructor s Resources MARC and RDA answer records are provided to instructors upon request Please contact CustomerService abc clio com for more information [Illinois Technograph](#) ,1953
