# Plasma TV

## user manual

### imagine the possibilities

Thank you for purchasing this Samsung product. To receive more complete service, please register your product at

[www.samsung.com/register](http://www.samsung.com/register)

Name: \_\_\_\_\_ Serial No.: \_\_\_\_\_

## User Instructions

- ❑ **Screen image retention**  
Do not display a still image (such as on a video game or when looking up a PC) on the plasma monitor panel for more than 2 hours as it can cause screen image retention. This image retention is also known as "screen burn". To avoid such image retention, reduce the degree of brightness and contrast of the screen when displaying a still image.
- ❑ **Heat on the top of the PDP TV**  
The top side of the product may be hot after long period of use as heat dissipates from the panel through the vent hole in the upper part of the product. This is normal and does not indicate any defect or operation failure of the product. However, children should be prevented from touching the upper part of the product.
- ❑ **The product is making a 'cracking' noise.**  
A 'cracking' noise may occur when the product contracts or expands due to a change of surrounding environment such as temperature or humidity. This is normal and not a defect of the unit.
- ❑ **Cell Defects**  
The PDP uses a panel consisting of 2,300,000(HD-level) to 5,221,000(FHD-level) pixels which require sophisticated technology to produce. However, there may be few bright or dark pixels on the screen. These pixels will have no impact on the performance of the product.
- ❑ **Avoid operating the TV at temperatures below 5°C(41°F)**
- ❑ **A still image displayed too long may cause permanent damage to the PDP Panel.**

Watching the PDP TV in 4:3-format for a long period of time may leave traces of borders displayed on the left, right and centre of the screen caused by the difference of light emission on the screen. Playing a DVD or a game console may cause similar effect to the screen. Damages caused by the above effect are not covered by the Warranty.

- ❑ **Afterimage on the Screen.**  
Displaying still images from Video games and PC for longer than a certain period of time may produce partial afterimages. To prevent this effect, reduce the 'brightness' and 'contrast' when displaying still images.
