Grade 5 Reading Comprehension Worksheet

Albert Einstein

Read the passage. Then answer the questions.

Albert Einstein was born on March 14, 1879 in Ulm, Germany, his father was an electrical engineer, and his mother was a musician. She taught him to music. He didn't speak until he was two years old. When he was six, his father gave him a compass. He was fascinated by the way the needle always pointed north. This experience helped to create a great curiosity in him. He attended a high school called Luitpold Gymnasium Munich. After a year in Italy he went to Zurich, Switzerland. He took a job at the Swiss Patent Office, examining patents for people's inventions. The year 1905 was an exceptional year for Einstein. In that year he published three outstanding papers.

1. He outlined his photoelectric law in which he discussed the behavior of light. In 1921 he was awarded the Nobel Prize for this paper.
2. The second paper, which was his most famous, explored the relation of mass to energy.
3. The third paper was on the Special Theory of Relativity. He concluded the speed of light is always the same; 186,000 miles a second.

The Institute for Advanced Study in Princeton, New Jersey invited him to be their director. He spent the rest of his life in America. Einstein was married two times. He died at the age of 76. He developed the general theory of relativity, one of the two pillars of modern physics. Einstein's work is also known for its influence on the philosophy of science.

Answer each question.

1. What do you know about the early life of Albert Einstein?
2. Where did Einstein job?
3. Why the year 1905 was a remarkable year for Einstein?
4. What was Einstein's major work?

Historical Foundations of Educational Psychology John A. Glover,Royce R. Ronning,2013-11-11 This volume represents a beginning effort to compile a history of educational psychology The project began innocuously enough several years ago when we decided to add mon material about the history of educational psychology to the undergraduate course we were teaching What seemed like a simple task became very complex as we searched in vain for a volume dealing with the topic We ended up drawing on various histories of psychology that devoted anywhere from a few paragraphs to several pages to the topic and on a very few articles addressing the issue We were startled frankly by the apparent lack of interest in the history of our field and decided to attempt to compile a history ourselves As is the case with any edited volume the contributing authors deserve credit for its positive features They uniformly made every effort asked of them and taught us much about educational psychology Any errors or omissions are our responsibility alone
