nineteenth century and the backdrop to this fascinating new study Gustav Klimt's election as the first President of the Secession Artists Association in 1897 formalised the rejection of conservatism and heralded a celebration of the innovative and the modern. Alongside Klimt, Egon Schiele and Oskar Kokoschka have been championed as the key protagonists in the painting revolution that redefined the traditional genres of portrait, landscape and allegory. However, this ignores the significant contribution made by Koloman Moser, whose painting is considered alongside that of Klimt, Schiele and Kokoschka for the first time in this book. Highlighting a decisive moment in the birth of modernity and offering previously unpublished insight into the relationship of Klimt, Schiele, Moser and Kokoschka from 1890 to 1918, this book with its wealth of stunning images makes an invaluable contribution to Secessionist scholarship and as such is essential reading for anyone wishing to seek a fresh perspective on a fascinating period in the history of art.

New Art (Cloth) A. Papadakēs, Clare Farrow, Nicola Hodges, 1991-09-11. The accelerated history of an art world preoccupied with whatever is newer than the new or as Germano Celant writes 'more present than the present' demands a consolidation of contemporary art and related theory existing today. New Art seeks to come to terms with the changing and continually developing trends in the art world at the beginning of the 1990s. Brought together are artists, critics and curators from Europe and the USA who have played seminal roles in inventing and discerning the most significant definitions circulating the international art scene over the last decade or so.

The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century. New York, 1980. Gustav Klimt. Gustav Klimt, Tate Gallery, Liverpool, 2008-09. Gustav Klimt 1862-1918 remains one of the most popular artists of the early 20th century. Published to accompany a major exhibition at Tate Liverpool, a highlight of that city's 2008 Capital of Culture celebrations and the first such show in the UK, Gustav Klimt explores the life and work of an intriguing figure at the heart of the cultural transformation of Vienna around 1900. Central to the book is the first thorough examination of the relationship between Klimt's paintings and the work of his close friend, the architect and designer Josef Hoffmann. Reaching beyond the two-dimensional arts, it hails the advent of an all-inclusive design culture that embraced interiors, furniture, clothing and jewellery. Essays by leading scholars and curators consider key works, events and developments: the founding of the Viennese Secession, the inaugural display of the Beethoven Frieze and a series of collaborative ventures in the creation of total domestic environments for the pursuit of modern life, among them the Villa Maerndorfer in Vienna and the Villa Primavesi in rural northern Moravia. In addition, Klimt is assessed as both an accomplished erotic draughtsman and a seductive landscape
