

Self-Introduction Scholarship Essay

My name is Abigail Lopez. I am a student at Southeastern College completing an associate's degree in science and planning on transferring to a four-year college or university. My educational aspirations consist of acquiring a bachelor's degree in any biological or health science that would assist me in pursuing a medical career as a doctor. On the other hand, my career vision is to one day be able to provide affordable health care to marginalized communities in the United States. However, I am certain that if I do not complete my college degree I could never have the opportunity to achieve my career goals. I decided that I will attain a career as a doctor since my passion has always been assisting others and trying to improve their quality of life. Therefore, I think that pursuing such a career will provide me the opportunity to help improve the community's health quality conditions and learn about their medical needs. After becoming a certified doctor, I want to specialize in oncology, the study of cancer, and add my knowledge to the cancer research field.

Furthermore, I want to contribute back to undeserved populations in the U.S. that struggle every day to sustain a family, and who do not have as much access to medical assistance as other privileged groups. The first health project I want to accomplish throughout my career as a doctor is to establish a free clinic where affordable medical assistance can be provided regardless of the patient's immigration status. The diverse health services would include free doctor consultations, low-price or free medication, and nutritional classes to prevent the presence of diabetes or heart disease. I also intend to provide an interpreter for patients in case they do not speak English and establish a financial assistance program to help patients who are not able to pay for any type of surgery that needs to be performed. The second biggest career goal that I want to accomplish is to establish a non-profit organization where I can create internships for medical school students around the U.S., and allow them to travel to isolated communities around the world to provide free medical services. I also want to provide nutrition education to support these marginalized communities, especially indigenous groups from Latin American countries. This will help contribute to the physical development of kids and offer a solution to malnutrition. I know that all of my goals will remain dreams if I do not complete my medical degree. Therefore, I am committed to working hard in school and looking for opportunities that could help me make my goals a reality.

Southern History across the Color Line, Second Edition Nell Irvin Painter, 2021-02-17 The color line once all too solid in southern public life still exists in the study of southern history As distinguished historian Nell Irvin Painter notes we often still write about the South as though people of different races occupied entirely different spheres In truth although blacks and whites were expected to remain in their assigned places in the southern social hierarchy throughout the nineteenth century and much of the twentieth century their lives were thoroughly entangled In this powerful collection of pathbreaking essays Painter reaches across the color line to examine how race gender class and individual subjectivity shaped the lives of black and white women and men in the

nineteenth and twentieth century South She explores such themes as interracial sex white supremacy and the physical and psychological violence of slavery using insights gleaned from psychology and feminist social science as well as social cultural and intellectual history The book illustrates both the breadth of Painter s interests and the originality of her intellectual contributions This edition features refreshed essays and a new preface that sheds light on the development of Painter s thought and our continued struggles with racism in the twenty first century [The Senator Next Door](#) Amy
